Please be advised that the County of San Bernardino, Department of Public Health, Division of Environmental Health (LEA) received and approved a Report of Facility Information (RFI) amendment to the Transfer Processing Report (TPR) for the Sheep Creek Transfer Station. The LEA is certified by the California Integrated Waste Management Board to enforce state laws and regulations at solid waste sites within the County of San Bernardino, including all active and closed landfills.

Description of Project and LEA's Preliminary Determination

The Sheep Creek Transfer Station is located at 10130 Buckwheat Road, about 2,500 feet north of Phelan Road, approximately two miles northwest of Phelan. On May 22, 2014 the LEA received, from San Bernardino County Solid Waste Management Division, a Solid Waste Facility Permit (SWFP) application package to amend the TPR and update said TPR according to the LEA findings in the 5-year Permit Review Report dated March 19, 2014. These changes include:

- Page i, Advance Planning correspondence location corrected.
- Page iii, Drawings A-3, C-1 & C-2 added to Table of Contents.
- Page 5, Section I.D.2.d and Table 2 updated.
- Page 26, Section III.D.7, Odor Control updated to reference correction section.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted CEQA documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current solid waste facilities permit. The LEA approved the amendment on June 10, 2014.
