16. Self Monitoring:

The owner/operator shall submit the results of all self monitoring programs to the Enforcement Agency within 30 days of the end of the reporting period *(for example, 1st quarter = January – March, the report is due by April 30, etc.. Information required on an annual basis shall be submitted with the 4th quarter monitoring report, unless otherwise stated.)*

Program	Reporting Frequency
a. The types and quantities (in tons) of materials entering into the facility per day.	Quarterly
b. The types and quantities (in tons) of materials leaving the facility per day.	Quarterly
c. The number and types of vehicles using the facility per day.	Quarterly
d. Results of the hazardous waste load checking program, including the quantities and types of hazardous wastes, medical wastes or otherwise prohibited wastes found in the waste stream and the disposition of these materials.	Quarterly
e. Copies of all written complaints regarding this facility and the operator's actions taken to resolve these complaints.	Quarterly
f. Sampling results for pathogen testing and metal testing.	Quarterly

17. Enforcement Agency (EA) Conditions:

a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14 of the California Code of Regulations.

b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA at all times.

c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.

d. The maximum permitted daily tonnage for this facility is 3,000 tons per day (1,000 tons per day and 166,720 tons per year green waste, 2,000 tons per day and 150,000 tons per year inerts) and shall not receive more than this amount without a revision of this permit. The facility is permitted to receive the following non-hazardous waste: yard trimmings, untreated wood waste, construction and demolition wood waste, palm, asphalt and concrete.

e. This permit is subject to review by the EA and may be temporarily suspended or revoked at any time by the EA for sufficient cause, in accordance with Division 30 of the Public Resource Code, Part 4, Chapter 4, Article 2, Sections 44305 et seq and associated regulations.

f. The EA reserves the right to suspend or modify waste receiving and handling operations due to an emergency, a potential health hazard, or the creation of a public nuisance.

g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.

h. The operator shall maintain a copy of this permit during normal office hours. In addition, the Report of Composting Site Information (RCSI), Odor Impact Minimization Plan (OIMP), Operation Plan and Fire, Prevention Mitigation and Control Plan, tonnage reports, load check results, temperature logs, process for further reducing pathogens (PFRP) logs, all sampling results and complaints shall be maintained onsite.

i. The site shall maintain a formal load checking hazardous waste monitoring program that is approved by the enforcement agency. The operator shall provide employee training to address the recognition and proper response to hazardous material incidents.

j. Processed inerts shall be stored onsite no longer than 18 months.

k. The operator shall maintain and make available upon request for inspections for the enforcement agency and CalRecycle, all correspondence and reports provided to other regulatory agencies that have jurisdiction over the design and operations of the facility.

l. Contaminants and residuals shall be handled as enumerated in the RCSI and Operation Plan.
