17. Local Enforcement Agency (LEA) Conditions:

a. This permit supersedes all previous Solid Waste Facility Permits for this site.

b. A copy of this permit shall be maintained at the facility.

c. This permit is subject to review by the LEA and may be suspended, revoked, or revised at any time for sufficient cause. The LEA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.

d. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14 and Title 27 of the California Code of Regulations.

e. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. **In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the LEA at least 180 days in advance of the change.**

f. **This facility shall comply with all federal, state and local requirements and enactments, including all mitigation measures given in governing CEQA documents as well as administrative enforcement orders of all regulatory agencies with jurisdiction at the facility.**

g. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the LEA.

h. The operator shall maintain a log of special/unusual occurrences (S.O.) that includes, but is not limited to complaints (written and verbal), fires, explosions, discharge and disposition of hazardous or non-permitted wastes, significant injuries, accidents and property damage. The operator shall notify the LEA by phone and/or email of any S.O. within 48 hours of each occurrence. The log shall be available to site personnel and the LEA at all times. Entries shall also summarize operator-mitigating actions.

i. **Facility shall not receive more then the permitted 300 peak tons of waste and recycle material per day. The facility shall not receive more then 250 peak vehicles trips per day**.

j. Unless there is a declared emergency, due to potential adverse health and safety impacts to the community, the facility must not refuse non-franchise haulers in order to avoid exceeding permitted tonnage or traffic limits. It is the operator's responsibility to ensure site remains open but does not exceed permitted limits. Any change in operating hours must be preceded by a minimum of 30 days of notification of the public and other users and approval by the LEA.

k. The operator will conduct daily cleanup on Calle Del Adobe Rd between Boronda Rd and Davis, Boronda Rd from El Rancho to Madison Lane and Madison Lane from Boronda to end of Madison Lane, and within the boundary of the station.

l. The handling and processing of compostable material shall comply with CCR Title 14 Section 17850. The accumulation of green waste must neither interfere with the operation of the facility nor pose a threat to health and safety.

m. Solid waste may not be stored in a vehicle kept at the facility for more than 24 hours as per 14 CCR Section 17331 (H).

n. The transfer building floor and loading pits are to be cleaned daily to prevent the accumulation of solid waste. Furthermore the floor and pits shall be steam cleaned every 3 months as prescribed in the facility RFI.

o. All solid waste that is destined for disposal must be moved offsite within 48 hours.

p. Tires shall be removed offsite within six months. The facility may not store more than 300 tires at any given time. The operator must report to CalRecycle any waste hauler entering the site carrying 10 or more tires (or 200 lbs or more of altered tires) that is not registered with CalRecycle as a waste tire hauler. In addition, if 10 or more tires (or 200 + lbs if altered) are removed from the site, only a hauler registered with CalRecycle may be utilized. Manifests must be maintained for all incoming and outgoing loads as per Title 14, Chapter 6 of the California Code of Regulations.
