SOLID WASTE FACILITY PERMIT

Facility Number:

36-AA-0067

16. Self- Monitoring:

The owner/operator shall submit the results of all self-monitoring programs to the Local Enforcement Agency within 30 days of the end of the reporting period.

Program	Reporting Frequency
a. The types and quantities (in tons) of waste, including separated or commingled recyclables, green material, construction and demolition waste, entering the facility per day.	Quarterly
b. A record of beneficial reuse of solid waste (to include types and quantities) in accordance with 27 CCR §20686.	Quarterly
c. The number and types of vehicles using the facility per day.	Quarterly
d. Results of the hazardous waste load checking program, including the quantities and types of hazardous wastes, medical wastes or otherwise prohibited wastes found in the waste stream and the disposition of these materials.	Quarterly
e. Copies of all written complaints regarding this facility and the operator's actions taken to resolve these complaints.	Quarterly
f. Results of the landfill gas monitoring program performed to meet requirements of Title 27.	Quarterly

17. Local Enforcement Agency (LEA) Conditions:

a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14 and 27, California Code of Regulations (CCR). The operator shall inspect this site at least once each day of operation to ensure compliance with all applicable standards.

b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the LEA at all times.

c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the LEA.

d. The maximum permitted daily tonnage is 100 tons per day and shall not receive more than this amount without a revision of this permit. The maximum permitted daily tonnage of 100 tons per day will include the waste received at the Material Recovery and Recycling Facility when operations begin at that facility. This limit does not apply to clean earthen material or materials ready for use as alternative daily cover.

e. This permit is subject to review by the LEA and may be temporarily suspended or revoked at any time by the LEA for sufficient cause, in accordance with Division 30 of the Public Resource Code, Part 4, Chapter 4, Article 2, Section 44305 et seq., and associated regulations.

f. The LEA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, unexpected military activities, a potential health hazard, or the creation of a public nuisance.

g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of a JTD/RFI amendment, to the LEA at least 180 days in advance of the change.

h. A copy of this permit shall be maintained at the facility.
