2030-RC-OSP Commercial On-Site Pickup	N	Y	1994	SO		SO		SO		SO		SO			

Notes: SRRE pg 6-25: Mandatory commercial and industrial `curbside` recycling program.1995 + 1996 AR: (and per phone call) Voluntary commercial recycling program handling paper, glass, cans and plastic.1998 AR: Currently have 320 participants. Use front loader truck and 1.5, 2 or 3 cubic yard bins.1999 AR: As of 12/99, have aprx. 365 accounts. In 1998, also implemented "Commercial Select" route for clean commercial loads. Aprx. 190 accounts. In 1996, the city started a separate commercial front loader recycling route which services businesses utilizing 11/2, 2 and 3 cubic yard recycling bins. Businesses can recycle all types of clean, dry papers as well as bottles and cans. During 1999, the number of businesses participating in the CRR program increased from 330 to 363. In addition, the tonnage collected increased to 1,920 tons, up 415 tons from the previous years total of 1,505 tons, an increase of 28%. As of the end of 1999, City staff had made contact with over 500 commercial sanitation customers to discuss and solicit participation in the CRR program. In an effort to increase the amount of material diverted from the commercial sector, the city and its hauler, Victorville Disposal, have worked together to develop two "select" recycling programs. "Select" loads are commercial trash loads which have a relatively height percentage of cardboard and other dry papers. These select loads are directed to the City's MRF where the loads are processed and recoverable materials are pulled out. The "Roll Off Select" program targets 30 and 40 cubic yard roll-off boxes and enclosed compactors. Roll offs and compactors from dept. stores, etc., are sent to the city's MRF for sorting. During 1999, the city sent 1,1,26 tons of roll-off select loads to the MRF, a decrease from the preceding year. The tonnage decreased because it was decided to focus primarily on clean, dry loads. Loads from locations such as KMART, Wal-Mart, Target, Home Base, Costco and Home Depot were not longer sent to the MRF because the were too contaminated with organics (garden shop waste) and/or food waste to be efficiently or economically handled. The "Commercial Select Route" is for commercial customers using 1 1/2, 2 or 3 cubic yard front loader bins. It is intended to complement and augment the city's "commercial recycling route program and is targeted at commercial accounts which have large amounts of cardboard and office paper in their trash. During 1999, the CSR program collected 1,914 tons, and after sorting, aprx. 28%, or 540 tons, of this material was recovered for recycling. This was an increase of 60^ over 1998 figures.

2040-RC-SFH Commercial Self-Haul	N	Y	1994	SO		SO		SO		SO		SO			

Notes: SRRE pg 6-24.1995 + 1996 AR: Business and government will utilize drop-off sites,not implemented as drop-off, but as pick-up. Duplicate entry of 2030-RC-OSP. 1998 AR: Businesses can haul to MRF for buyback or drop-off. 1999 AR:program ongoing.

School Recycling Programs															
Notes: 1999 AR: During 1998 City worked with Victor Elementary School District (10 campuses), Adelanto School District (4 campuses), and Hesperia School District (1 campus), to start classroom recycling. They joined the city's Commercial Recycling Route (CRR) program. There are about 8,400 students and over 550 faculty and staff members. City hauler provides weekly collection of mixed recyclables, including glass, cans, plastics (#1 and #2), and mixed paper. Each school received blue plastic recycling containers for all classrooms and admin areas. Each school site was provided with a copy of the CIWMBs "Closing the Loop" curriculum. This program is ongoing.

Notes: SRRE pg 5-19: Support of state-level advance disposal fees.1999 AR: no change in status.

Notes: SRRE pg 6-25: Will handle both mixed-waste and source-separated recyclables

1995 + 1996 ARs:Processing facility handles commingled recyclables. 1998 AR: City Co-owns the "Victor Valley MRF" with Apple Valley. Operational since 1995. Currently processing about 70-100 tons/day.1999 AR: In 1999, MRF increased tonnage of "select" C&D loads to recover more wood waste, scrap metal and cardboard.

Notes: SRRE pg 7-28: Yard waste composting facility. 1995 + !996 AR: pg B-4, not implemented due to expense. limited amount of green waste and seasonal fluctuation in material.1999 AR: City and Mojave Desert & Mt. JPA worked w/California Bio Mass during 1999 to develop a privately operated/owned compost facility in Victorville, Facility was permitted in 1999 and will open spring 2000.

Notes: AR 1999: Public Works Dept. saves street sweepings, screens them to remove litter/trash and then periodically hauls to County landfill. It is used as ADC.

Notes: SRRE pg 7-31:Mixed municipal solid waste composting. 1995 + 1996 ARs: shows start date in 1997.1999 AR:no new information.

Notes: SRRE indicates moving existing facility from Victorville fire station to their MRF.1999 AR: City has permanent facility near Fire State. Made determination in 1996 to not move facility to MRF. Current HHW facility site is preferable and closer to public.

Status Code Legend

SO = Selected Ongoing
AO = Alternative Ongoing
SI = Selected Implemented
AI = Alternative Implemented
M = Regional Agency did not exist
D = Dropped
DE = Dropped in Earlier Year
