CRYOGENIC

PLAYSOFT 1020

CRUMB RUBBER INFILL

BAS Recycling, Inc.

1 (951) 214-6590

PRODUCT DESCRIPTION

Play Hard, Play Safe.. With PLAYSOFT Infill

PLAYSOFT 1020 Cryogenic Crumb Rubber Infill is produced through a state of the art Cryogenic recycling process that removes contaminants and produces a mixture of controlled sizes that are ideal for infilling synthetic turf to provide a safe, resilient playing surface

BENEFITS:

- *Non-toxic*
- *Won't absorb water, inhibits fungal growth*
- *Environmentally Friendly, made from 100% recycled tires*
- *Reduces heat, colored PLAYSOFT helps reduce heat gain associated with black crumb rubber*
- *Improves traction in wet conditions improving playability*
- *Custom color options available on request*

Physical Characteristics

CHEMICAL PROPERTIES	VALUE
