STATE OF CALIFORNIA CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD

**Base Year Modification Request Certification**

**Part 2: Generation Study - Includes Extrapolation of Residential or Non-Residential Diversion Data**

To request a substitution for a previously approved base-year used in calculating the diversion rate for your jurisdiction, please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

**California Integrated Waste Management Board**
**Office of Local Assistance**
**1001 I Street, 9th Floor**
**PO Box 4025**
**Sacramento, CA 95812-4025**

**General Instructions:**

Please select the **ONE** choice below that best explains your request to the Board.

☐ 1. Use a recent generation-based study to calculate our current reporting-year generation amount, but not officially change our existing Board-approved base year.

☐ 2. Use a recent generation-based study to officially change our existing Board-approved base year to a new base year.

The shaded cells on these sheets are protected . If you have problems using these sheets, please contact your Office of Local Assistance representative.

**Section I: Jurisdiction Information and Certification**

*All respondents must complete this section.*

I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:

| | | | |
|---|---|---|---|
| Jurisdiction Name<br>Compton | | County<br>Los Angeles | |
| Authorized Signature<br>Kareemah Bradford | | Title<br>Recycling Coordinator / Admin. Assistant | |
| Type/Print Name of Person Signing<br>Kareemah Bradford | | Date<br>30-Dec-01 | Phone ( )<br>310-605-5595 |
| Person Completing This Form (please print or type)<br>Kareemah Bradford | | Title<br>Recycling Coordinator / Admin. Assistant | |
| Affiliation: | City of Compton | | |

| 7. Disposal Tonnage: (enter values) | 47413 | 116457 | 163870 |
|---|---|---|---|
| | Residential | Non-Residential | Total |

Please select the **ONE** choice below that best explains your **disposal** data and complete the required tables.

☑ a. All tons claimed are from the Board's Disposal Reporting System (No explanation required. Go to Section 8.)

☐ b. All tons claimed are from a 100 percent audit of hauler and self-haul tonnage. (Please complete Reporting Year Tonnage Modification Request and Certification sheet found at http://www.ciwmb.ca.gov/lgcentral/forms/rytnmdrq.doc)

☐ c. Some Disposal Reporting System data were corrected. (Please complete Reporting Year Tonnage Modification Request and Certification sheet found at http://www.ciwmb.ca.gov/lgcentral/forms/rytnmdrq.doc)

**8.** In the table below, list the summarized diversion activities, and diversion data records that support your claim and are available for Board audit. (Note: the Board expects the jurisdictions to be able to provide all back-up documentation, if requested.) Include type of record and location—for example, weight tickets from transfer stations. This section should capture all diversion tonnage (form will perform all addition calculations). If any diversion is from restricted wastes [i.e., agricultural wastes, inert solids (e.g. concrete, asphalt, dirt, etc.), white goods, and scrap metal], please identify those programs/waste types and fill out section 11. Note: Restricted waste material should not be extrapolated in non-residential waste audits. Please mark as attachment 8 all copies of survey forms.

* Please provide detailed non-residential waste audit information in Section 9.

**Note: The Board has indicated that it will be scrutinizing total source reduction amounts greater than 5% of total generation. Please be prepared to provide additional details subsantiating your claim.**

**9. Specific Non-Residential Sector Waste Audits – Top 10 Non-Residential Generators**

Please complete this table for the top 10 non-residential generators that were surveyed. List each non-residential generator separately from the largest to smallest, based on total diversion tons. Audit reference number ties to your audit sheets.
**(Form will perform all calculations).**

Include attachment, marked attachment 9, which includes a summary of all the generators surveyed and all extrapolation calculations used to estimate the diversion rate:

- Include copies of survey form(s) used.
- Include for each generator (use type of generator in lieu of specific generator name, e.g. grocery store) each specific diversion activity and material type (e.g. cardboard recycling) and the associated tonnage for each diversion activity/material type, and applicable conversion factors/source.
- If using number of employees for your extrapolation method, include this information for each generator surveyed.
- Please order the non-residential generators, largest to smallest, based on total diversion tons.
- Also, summary should include the generators that were selected to be surveyed, but did not respond to the survey and the number of employees at each generator.
- As a comparison between disposal from the waste audits and DRS, the disposal for each generator must be included in the summary. Also, you should note if the disposal is being used for the extrapolation calculation. For each non-residential generator, the disposal must be broken out by cubic yard, and roll-off or compactor weights. If disposal was estimated for either disposal-based or employment-base extrapolation methods, please include conversion factor(s) for disposal and source for conversion factor(s). Please provide an explanation as to how the conversion factor(s) is (are) appropriate for your jurisdiction, e.g. study was conducted to determine average weights using hauler weight tickets, etc.

| Type of Non-residential Generator | Audit Reference Number | Specific Diversion Activities include material type (e.g. paper recycling, grasscycling). (List activities on one line) | Number of Employees | Source Reduction Tons | Recycling Tons | Composting Tons | Total Diversion Tons | Percent of Total Generation (Total Diversion Tons/Total Generation in Section 8) | Survey Method Phone (P) Mail (M) On-site (O) Other ___ |

| | | | | | | | | | |
| Totals | | | | | | | | | |

Summarize the non-residential diversion activities for the top 10 generators quantification methodology and applicable conversion factors and sources. (e.g. cardboard recycling: quantified by monthly tonnage receipts provided by the contact person at the business)

See Attachments (provided electronically) new automated business waste reduction audit program database. (Copyrigted by EcoTelesis). Confidential, provided for review purposes only. Not to be distributed or used for any other purpose.

**11.** For each restricted waste type [(i.e. agricultural waste, inert solids (e.g. concrete, asphalt, dirt, etc.), scrap metals and white goods (PRC Section 41781.2)] and associated program, please provide the following information:

**a.** If the diversion program started on or after January 1, 1990, complete the following table:
(Note: program name refers to one specific diversion program for that waste type, for example diversion conducted by City Public Waste Dept.)

| Restricted Waste Type | Specific Program name | Year started | Tonnage |
|---|---|---|---|
| Pull Down for Waste Types | | | |
| Pull Down for Waste Types | | | |
| Pull Down for Waste Types | | | |
| Pull Down for Waste Types | | | |
| Pull Down for Waste Types | | | |
| Pull Down for Waste Types | | | |

**b.** If the diversion program started before January 1, 1990, on a separate sheet, marked attachment 11b, provide the following documentation: (Note: If documentation for a waste type and program has already been approved by the Board, you do not have to provide an attachment 11b for that waste type and program. Instead please provide date of Board approval of previous submitted information.) _____ (Date)
If documentation is not available, go to 11d.

- How the diversion was the result of a local action taken by the jurisdiction, which specifically resulted in the diversion [PRC Sec. 41781.2 (c) (1)].
- That the amount of that waste type diverted from the jurisdiction in 1990 was less than or equal to the amount of that waste type disposed at a permitted disposal facility by the jurisdiction in any year before 1990. (Note: this criterion is applicable to the entire jurisdiction, not to individual programs [PRC Sec. 41781.2 (c) (2)]). Please include documentation.
- The jurisdiction is implementing, and will continue to implement, the diversion programs in its Source Reduction and Recycling Element.

**c.** If the diversion program started before January 1, 1990, and the documentation requested in 11b is available (but not yet approved by the Board), complete the table below for each program claimed:

| Restricted Waste Type | Specific Program Name | New base year or reporting year diversion tonnage |
|---|---|---|
| Pull Down for Waste Types | **See Attachment 9 for Individual Business Programs** | **444** |
| Pull Down for Waste Types | **No scrap metal programs claimed** | |
| Pull Down for Waste Types | | |
| Pull Down for Waste Types | | |
| Pull Down for Waste Types | | |
| Pull Down for Waste Types | | |

**d.** If the diversion program started before January 1, 1990, and the documentation requested in 11b is not available, please complete the table below for each program claimed. (***Note**: Only the difference between the new base year/reporting year and 1990 can be counted in the diversion rate calculation.)*

| Restricted Waste Type | Specific Program name | New base year or reporting year tonnage | 1990 diversion tonnage | Difference |
|---|---|---|---|---|
| Pull Down for Waste Types | | | | |
| Pull Down for Waste Types | | | | |
| Pull Down for Waste Types | | | | |
| Pull Down for Waste Types | | | | |
| Pull Down for Waste Types | | | | |
| Pull Down for Waste Types | | | | |

3) Is the diversion tonnage significantly larger than achieved by similar businesses of this type and size?

If the answer to all three subparts is no, then the individual business was not considered an outlier. If the answer to any single one of the subparts is "yes", the sample is considered an outlier and removed from the calculation of the extrapolative diversion correlative factor to prevent excessive diversion credit being given to the city. Once a sample is an outlier, the diversion from the business is only added to the final computed diversion from extrapolation diversion as an "actual sample" (that is, not included in the extrapolation). This insures that the diversion from the business is counted, but not extrapolated to give unreasonable diversion quantities.

The entire waste reduction and recycling business audit information has been entered onto a new database (developed through funding from Waste Management and over 20 cities). The new database automates the diversion calculation and outlier analysis. A separate workbook with Excel spreadsheet files been provided to the CIWMB with the new base year certification request form. All of the required Attachment 9 details that are required have been included in this spreadsheet.

D. Source of Business Listing / Sampling Population

The City of Compton provided the business license database. The franchise hauler provided their customer lists as well. A Dunn and Bradstreet database was used to determine the total number of employees in order to define the 80% cut-off point between the Large Business Strata and the Small Business Strata. The number of businesses approached for on-site visits was over 250. Site visits were conducted at 247 businesses. Approximately 15 percent of the businesses in the City of Compton were visited.

E. Sampling Accuracy

The sampling plan statistical accuracy is based on Appendix K of the CIWMB April 2001 Diversion Study Guide. The number of samples meets the minimum requirements of 90 percent confidence interval, with a plus or minus 5 percent precision level. The City of Compton's new base year study utilizes on-site data from 247 samples. The number of samples collected exceeds the minimum number of samples by 14 samples. (Source CIWMB: 1660 businesses in Compton.)

Notes:

Please note that this is the third new base year study that has been completed. The first study was completed and submitted in 1999 and was misplaced or lost by the CIWMB; the second study was done in the year 2000 (with the November 1999 Draft Diversion Study Guide Standards) and submitted in August 2000 and was caught in the moratorium. This is now the third study. The data is for the year 1999. The diversion rate is very low because diversion that cannot be verified by the businesses according to the new CIWMB DSG standards was deleted from the claimed tonnage. Please also note that of the 163,870 tons reported by the DRS, the City of Compton's franchised haulers collect and disposed of 76,482.12 tons. There is approximately 87,387.77 tons of Self Haul. The City of Compton will research the accuracy of the DRS and will also examine the feasibility of joining a regional agency to minimize DRS errors and to participate in more regional diversion programs.

Board Meeting
November 19-20, 2002
