PAVERTILE

Architectural Paver Tiles

Enhanced comfort and beauty with our eco-friendly PaverTiles

Enjoy underfoot comfort with our indoor/outdoor, slip-resistant, 100% recycled rubber tiles – the perfect eco-friendly alternative to traditional flooring. Create a beautiful, comfortable, protective floor for all of your residential and commercial environments. Designed in a variety of colors and patterns to satisfy all of your aesthetic needs.

Features and Product Highlights

- **Smooth, dense and shock absorbent** for more support and satisfaction
- **Skid resistant –** wet and dry
- **Easy installation with modular design –** fully-adhered or floating applications over concrete, asphalt, wood decking or compact stone
- **Easy maintenance –** requires only basic cleaning with a vacuum, broom or standard garden hose
- **Non toxic and certified 100% steel free**
- **Eco-friendly –** molded from 100% post-consumer waste tires, each tile diverts up to 1 tire from our landfills
