Subject: 30-Day Notice of Intent to Issue the City of Maywood a Compliance Order for Failure to Adequately Implement its Source Reduction and Recycling Element and Meet the Fifty Percent Diversion Requirement

Dear Honorable De La Riva and Mr. Dupret,

The purpose of this letter is to formally notify the City of Maywood (City) that the Department of Resources Recycling and Recovery (CalRecycle) will be considering issuing the City a Compliance Order at a public meeting in August. This action is based on CalRecycle staff's review of the City's progress in implementing diversion programs to meet the requirements of Public Resources Code (PRC) Section 41780. Failure to meet the requirements of the Compliance Order may result in civil penalties of up to \$10,000.00 per day.

CalRecycle staff has conducted a 2007/08/09/10/11 Jurisdiction Review of the City's Source Reduction and Recycling Element (SRRE) program implementation and diversion rate achieved to date. CalRecycle staff is bringing forward its 2007/08/09/10/11 Jurisdiction Review findings that the City has failed to adequately implement its diversion programs. The programs have significant weaknesses that prevent the City from achieving the 50 percent diversion requirement of PRC Section 41780.

The City's disposal target is 3.4 pounds per person per day. In 2007 the City disposed of 3.4 pounds per person per day; and, in 2008 the City disposed of 3.2 pounds per person per day. However, in 2009 the City disposed of 3.5 pounds per person per day; in 2010, the City disposed of 3.6 pounds per person per day; and, in 2011, the City disposed of 3.6 pounds per person per day.

CalRecycle staff is, therefore, recommending that CalRecycle consider issuing the City a Compliance Order that will require the City to work directly with CalRecycle staff to develop a Local Implementation Plan (LIP) which will identify a strategy for program enhancements and local actions necessary for the City to complete in order to implement its SRRE and achieve diversion requirements.

CalRecycle staff strongly recommends that you or your City's representative attend the CalRecycle meeting at which a Compliance Order will be considered. At this meeting, the City's representative will have an opportunity to present the City's program implementation efforts, diversion rate achievement, and/or any other special circumstances the City would like CalRecycle to consider. The representative should also be prepared to answer any questions from CalRecycle. The public hearing details are as follows:

**Department of Resources Recycling and Recovery Monthly Public Hearing**
