Please be advised that the Department of Resources Recycling and Recovery (CalRecycle), acting as the Solid Waste Enforcement Agency (EA) for the City of Stockton, has received and approved a Report of Facility Information (RFI) Amendment per Title 27, California Code of Regulations (27 CCR), Section 21665(c). This public notice was prepared pursuant to Title 27 CCR 21660.1.

Project Description

Recology Stockton is an existing large volume transfer/processing, chipping and grinding, and construction and demolition debris processing facility operating under a full Solid Waste Facilities Permit issued on May 2, 2014. The application package to amend the RFI requests the following changes: addition of a mulch coloring machine; updates to site personnel; and updates to the facility map.

The EA finds that the proposed changes are consistent with all applicable certified and/or adopted California Environmental Quality Act (CEQA) documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current Solid Waste Facilities Permit.

For Additional Information
