Subject: Proposed Solid Waste Facilities Permit Revision for L and D Landfill
Facility No. 34-AA-0020

Dear Mr. Lewis,

On August 31, 2015, Department of Resources Recycling and Recovery (CalRecycle) staff received electronic correspondence from the operator of the subject facility containing an unsigned letter indicating a waiver of the processing time requirements found in PRC 44008 and 44009. It is CalRecycle staff's understanding that the LEA is willing to accept the operator's waiver of the processing time (PRC 44008).

As a proposed permit has been submitted by the LEA to CalRecycle, action must be taken within 60 days under PRC 44009. For the subject permit, action is required no later than September 14, 2015. The LEA may wish to request that the permit be returned, this will remove the requirement for CalRecycle action. When the LEA believes it is appropriate, the proposed permit can be submitted, and CalRecycle will complete a timely processing of the permit toward an action. If staff do not receive a request for the permit to be returned to the LEA, the permit will continue to be processed for action. CalRecycle will accept the LEAs request for the permit's return via e-mail to help facilitate the process.

If you have any questions, please contact me at (916) 341-6599 or nicholas.oliver@calrecycle.ca.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Nicholas Oliver". The signature is fluid and cursive, written over a light blue horizontal line.
