Subject: Return L&D SWFP

Nick: As you know, the operator of L&D Landfill has waived the time limit for the LEA to consider the current application to revise the solid waste facility permit and for CalRecycle to concur, in order to allow completion of the CEQA process. We submitted the permit package to you on July 16, 2015. Per your letter from yesterday, we ask that you return the permit. Once CEQA is completed, we will resubmit the permit to you for timely processing.

Thank You.
