Request Date: May 5, 2014

Decision Subject: Issuance of a Major Waste Tire Facility Permit Renewal for BAS Recycling, Inc.
TPID No. 1565901/33-TI-1537

Action By: June 17, 2014

Summary of Request: This is a request that the Branch Chief approve the issuance of a Major Waste Tire Facility Permit (WTFP) for BAS Recycling, Inc. TPID No. 1565901/33-TI-1537, in Moreno Valley (Riverside County). Staff's findings and recommendations are provided relative to the proposed action.

Staff received an application for a Major Waste Tire Facility Permit renewal on December 16, 2013. The application was accepted on December 19, 2013. Based upon the acceptance of the application, CalRecycle is required to act by June 17, 2014. The existing major WTFP expires on May 22, 2014.

As part of the renewal, the amount of altered waste tires that are larger than ¼ inch in size, but have been processed to a point where the average size is less than two (2) inches and are stored in bags or bins/boxes, which were not previously counted toward the maximum permitted capacity of 9,999 whole waste tires/passenger tire equivalents, will be limited to 200 tons in the WTFP based on existing operations. There are no proposed changes from the existing design or operation.

Recommendation: Based on our review of the submitted permit application package, staff recommends issuance of the Major WTFP. The applicant has met all the necessary application requirements outlined in Title 14, California Code of Regulations, Section 18431 pertaining to the issuance of a Major WTFP renewal. The documents and analysis on which staff's findings are based are permanently maintained by the Waste Permitting, Compliance, and Mitigation Division.

Branch Chief Action: On the basis of the information, analysis and findings in the staff report attached to this Request for Action and staff recommendation, I hereby issue the Major Waste Tire Facility Permit for BAS Recycling, Inc., TPID No. 1565901/33-TI-1537.
