9 separated, and sorted post-consumer carpet and processed, including (1) extraction of  
10 components for recycling if at all possible; and (2) size reduction, shredding, and/or

  - (1) Contact information. Identify the manufacturer or designated stewardship organization responsible for the plan submittal.
  - (2) Scope. The program described in the stewardship plan is:
    - (A) Designed to accept and manage all applicable post-consumer carpet, regardless of polymer type or primary materials of construction.
    - (B) The stewardship plan submitted follows the standard outline (see §18942 Stewardship Submittal Instructions).
  - (3) Performance Goals and Activities. The program described in the stewardship plan shall contain a set of performance goals and criteria that include, but are not limited, to the following items:
    - (A) ~~Numeric~~ Performance goals, which shall be numeric as noted, and include a description of how program goals will be achieved for the following categories:

      - 2. Incentivize the market growth of secondary products made from post-consumer carpets.
      - 3. Increase the reuse of post-consumer carpets (numeric goal).
      - 4. Increase the recycling of post-consumer carpets (numeric goal).
      - 5. Increase the diversion of post-consumer carpet from landfills.
      - 6. Increases in the discharge of air contaminants or emissions, including greenhouse gases, due to transformation or gasification processes, must be accompanied by documentation that demonstrates the activity will achieve a net benefit to air quality.
    - (B) The goals established in the plan are at a minimum equal to the goals established in the CARE MOU, while recognizing the current recycling infrastructure and capacity in California is higher than the nation, and estimating changes in market conditions, and anticipating recycling infrastructure and capacity in California.

- 1 (C) Each goal has a baseline from which it is measured using the units used in  
2 the CARE MOU and reporting requirements.
- 3 (D) The plan describes a methodology for estimating the amount of carpet  
4 available for collection in California.
- 5 (E) Report on source reduction.
- 6 (4) Solid Waste Management Hierarchy. Describe:
- 7 (A) Proposed measures that will enable the management of post-consumer  
8 carpet in a manner consistent with the state's solid waste management  
9 hierarchy pursuant to PRC Section 40051 and demonstrate that over time  
10 source reduction, reuse, and recycling will increase, over environmentally  
11 safe transformation and land disposal.
- 12 (B) Management of carpet through source reduction, reuse and recycling must  
13 be greater than, and grow at a higher rate than the management of carpet  
14 through Carpet As Alternative Fuel, Waste-to-Energy, and incineration and  
15 other forms of transformation.
- 16 (C) This Article does not modify or abrogate in any manner existing provisions  
17 of Section 41783 of the Public Resources Code related to transformation  
18 that allow jurisdictions to reduce their per-capita disposal rate by no more  
19 than 10 percent. ~~Materials sent to transformation facilities must meet the~~  
20 requirement of Section 41783(a)(2) of the Public Resources Code  
21 regarding front-end methods or programs to remove all recyclable  
22 materials from the waste stream prior to transformation to the maximum  
23 extent feasible.

2 laser detection devices, or other technology.
- 3 (D) General description of best management practices to be followed by the  
4 service providers, including any training that the manufacturer or

9 assessment, including but not limited to those in rural areas, will have  
10 reasonably convenient opportunities (ies) located in each county that  
11 has a carpet retailer or desires a-to conveniently and properly manage their  
12 post-consumer carpet.

3 benefit over landfilling and that without an incentive more materials  
4 would be landfilled.

5 (G) Stewardship organization and manufacturers shall allocate revenues and  
6 expenditures applicable to this program in accordance with Generally  
7 Accepted Accounting Principles.
