## 17. Enforcement Agency (EA) Conditions:

- a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14, California Code of Regulations (CCR), Chapter 3.0 Division 7.
- b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, operational shutdowns, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA during operating hours.
- c. The operator shall make copies of all inspection reports and permits issued by the EA available for review by site personnel and authorized representatives by the EA during normal office hours.
- d. The operator shall adhere to the terms of this permit and RCSI and amendments thereof.
- e. Load Checking for hazardous waste shall be performed in accordance with standards prescribed in CCR, Title 14, Section 17867(a)(3).
- f. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.
- g. The maximum permitted daily tonnage for this facility is 1,000 tons per day (tpd), and shall not receive more than this amount of waste without a revision of this permit.
- h. This permit is subject to review by the EA and may be suspended, or revoked, at any time by the EA for sufficient cause in accordance with Division 30 of the Public Resources Code, Part 4, Article 2, Section 44305 et seq., and associated regulations.
- i. The EA reserves the right to suspend or modify waste receiving and handling operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.
- j. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.
- k. The following activities are prohibited:
  - 1) Scavenging;
  - 2) Vector propagation and harborage;
  - 3) Off-site migration of waste, litter, or leachate to prevent contact with the public; and
  - 4) Burning waste.
- l. A copy of this permit and current RCSI as amended or approved shall be maintained at the facility and available to site personnel and the EA at all times.
- m. A copy of the Odor Impact Minimization Plan shall be maintained at the facility gatehouse. The operator's phone number shall be made available to the general public should there be any questions or complaints regarding possible objectionable odors.
