

SOLID WASTE FACILITY PERMIT

Facility Name: Bradley East Transfer Station / Sun Valley Recycling Park

SWFP No. 19-AR-1237

Page 2 of 5

12. Legal Description of Facility:

Tract TR 10646, Map M B 174-34/35, Lot FR2, Map Sheet 195B169
 Assessor Parcel No. (APN): 2538009008

13. Findings:

- a. The facility is identified in the City of Los Angeles Non-Disposal Facility Element. [Public Resources Code (PRC), Section 50001 (a)(2)].
- b. This Permit is consistent with standards adopted by the California Department of Resources Recycling and Recovery (CalRecycle). [PRC, Section 44010].
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the Local Enforcement Agency (LEA). [PRC, Section 44009].
- d. The local fire protection agency, the Los Angeles City Fire Department, has determined that the facility is in conformance with applicable standards as required in PRC, Section 44151.
- e. The City of Los Angeles Local Enforcement Agency has determined that the solid waste facility permit is being issued to replace the temporary permit that was issued on July 16, 2008 without any changes to the facility's permit limits or operations. The LEA has determined that pursuant to 14 CCR, Section 15301 that this application would fall under Categorical Exemption, Class 1 – Existing Facilities. This Categorical Exemption allows for the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing private facilities involving negligible or no expansion of use beyond that previously existing at the time of the lead agency's determination.
- f. Based on the Transfer/Processing Report (TPR), dated May 20, 2010 and revised June 21, 2010, the LEA is satisfied that this facility will provide measures to adequately control noise levels, gas/odor nuisances, traffic congestion, litter nuisances, and vectors such that there will be no significant impact on the local residences.

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous wastes requiring special handling, designated waste or hazardous waste, and unless the acceptance of such waste is authorized by all applicable permits. In the event that hazardous or suspected hazardous wastes are brought into the facility, the operator is required to follow procedures for obtaining information, notification, handling and disposal as outlined in the Load Check Program of the TPR.

The permittee is additionally prohibited from the following items or activities:

- Acceptance of solid waste materials not included in the approved Transfer Processing Report,
- Acceptance of liquid waste, containerized or not,
- Acceptance of radioactive wastes
- Scavenging or open burning,
- Acceptance of sewage sludge, or septic tank pumpings, slurries, untreated medical waste, or dead animals.

15. The following documents also describe and/or restrict the design and operation of this facility:

**16. Self-Monitoring: Results of all self-monitoring programs as described in the TPR will be reported as follows:
(The monitoring reports are delinquent 30 days after the end of the reporting period)**

Program:	Reporting Frequency:	Agency Reported To:
<p>The types and quantities of decomposable and inert wastes, including separated or commingled recyclables, received <u>each day</u>. The operator shall maintain these records on the facility's premises for a minimum of one year and made available to any Enforcement Agencies' personnel on request.</p> <p>Quantity and types of wastes salvaged/recycled per month and the final destination of these diverted materials.</p> <p>The quantities and types of hazardous wastes, untreated medical wastes, or otherwise prohibited wastes found in the waste stream and the disposition of these materials.</p> <p>All incidents of unlawful disposal of prohibited materials and the operator's actions taken. Indicate those incidents which occurred as a result of the random load checking program.</p> <p>Copies of all written complaints regarding this facility and the operator's actions taken to resolve these complaints. (Notification to the LEA within one day following the complaint is also required.)</p> <p>Final disposal site for transferred wastes.</p> <p>The number and type of vehicles using the facility per day.</p> <p>Reports of all special/unusual occurrences and the operator's actions taken to correct these problems.</p> <p>Record of receipt of a Notice of Violation from any regulatory agency. In addition, the operator shall notify the LEA at once following receipt of a Notice of Violation or upon receipt of notification of complaints regarding the facility, which have been received by other agencies.</p>	<p>Monthly (Due by the 15th of each month)</p>	<p>LEA</p>
<p>Notify the LEA and CoSWMC, in writing, of any change in the name of operator or control of land ownership.</p>	<p>45 Days Before Any Change</p>	<p>LEA, CoSWMC</p>
<p>Notify any new owner or operator by letter, a copy of which shall be filed with the LEA, of the existence and terms of the Solid Waste Facility Permit</p>		<p>LEA and New Owner</p>

17. LEA Conditions:

- a. This facility shall comply with all the State Minimum Standards for Solid Waste Handling and Disposal as specified in Title 14 and Title 27, California Code of Regulations (CCR).
- b. This facility shall comply with all federal, state, and local requirements and enactments.
- c. The operator shall comply with all notices and orders issued by any responsible agency designated by the Lead Agency to monitor the mitigation measures contained in any of the documents referenced within this permit pursuant to the *Public Resources Code 21081.6*.
- d. Information concerning the design and operation of this facility shall be furnished, in a timely manner, upon request by the LEA.
- e. The operator shall maintain a copy of this permit and TPR at the facility so as to be available at all times to facility personnel and to Enforcement Agencies' personnel.
- f. The LEA reserves the right to suspend, modify or revoke this permit when deemed necessary due to an emergency, a potential health hazard, the creation of a public nuisance, or failure to pay LEA fees.
- g. The operator shall notify the LEA, in writing, of any proposed significant changes in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any changes unless the operator first submits to the LEA a notice of said changes at least 180 days before said changes are undertaken, and those changes are approved by the LEA. Any significant change as determined by the LEA would require a revision of this permit.
- h. A summary of all pilot projects must be submitted to the LEA, in writing, prior to the implementation of that pilot project. The LEA must approve all pilot projects before they can be implemented.
- i. The permitted maximum daily capacity of this facility has been determined to be 1,532 tons per day of incoming material.
- j. The operator shall comply with all conditions and requirements as approved in the TPR.
- k. The operator shall comply with all of the requirements of all applicable laws pertaining to employee health and safety.
- l. The operator shall provide site employees with a lunch room and restroom facilities.
- m. All unloading, loading and processing of material and wastes shall occur inside the permitted facility property.
- n. The operator shall not expand facility operations above those permitted by this permit and the associated site plan until such time that those buildings, including any associated environmental mitigation requirements, are constructed in accordance with applicable local permits, approvals, and regulations.
- o. The operator shall restrict the unloading area to as small an area as practicable, provide adequate control of windblown material, minimize the propagation of flies, rodents or other vectors and the creation of nuisances resulting from solid wastes being handled at the facility.
- p. All chipped and ground material shall be stored within designated areas in a neat and orderly manner so as not to generate litter, harbor vectors or pose a nuisance. Green material shall not be allowed to reach composting temperature of 122° F.
- q. The site must be supervised by trained individuals with relevant experience at all times during operating hours. Supervisors and managers must have the authority to commit company resources in a timely manner to resolve emergency and non-emergency health, safety and environmental issues, if such action is necessary, to protect the health and safety of site employees and the nearby community.
- r. The operator shall maintain, at the facility, accurate daily records of the weight and/or volume of refuse received. These records shall be made available to the LEA's personnel and to the CalRecycle personnel for inspection and shall be maintained on site for a period of at least three years.
- s. The operator shall comply with the established Litter Control Program. This program includes tarping requirements, containment of litter, site and facility clean-up and monitoring procedures. It is the responsibility of the operator to keep Glenoaks Boulevard, Tujunga Avenue and Peoria Street free of litter and debris resulting from the facility operation.
- t. The operator must provide additional dust and odor control measures and other environmental and health/safety measures upon the request of the LEA if such measures, as provided in the TPR, prove to be inadequate.
- u. Noise levels at the property boundaries shall be minimized and in conformance with the Chapter XI – Noise Regulations of the Los Angeles City Municipal Code.
- v. The operator shall provide daily cleaning of the entire transfer facility and all green material shall be removed from the facility within 48 hours of acceptance. If water is used as the cleaning agent, runoff from such wash downs shall not leave the site.
- w. The operator shall provide sufficient queuing space onsite for all solid waste collection vehicles. Queuing of vehicles is prohibited on Tujunga Avenue.

17. LEA Conditions

- x. Operational controls shall be established to preclude the receipt and disposal of hazardous waste and volatile organic chemicals or other types of prohibited wastes. The operator shall comply with the approved Hazardous Waste Load Checking Program. Any changes in this program must be approved by the LEA prior to implementation. The following Solid Waste Facility Permit conditions supplement those conditions:
- (1) The minimum number of random waste vehicle loads to be inspected daily at this facility is two (2). The LEA reserves the right to increase the required number of incoming waste load inspections.
 - (2) The personnel training and load check procedures necessary for the program must be submitted and approved by the LEA. Visual inspections are to be performed by trained spotters and equipment operators. The LEA must review and approve this program and operation. Additional measures may be required upon the request of the LEA.
 - (3) In the event that hazardous or suspected hazardous wastes are brought into the facility, the operator is required to follow procedures for obtaining information, notification, handling and disposal as outlined in the approved Load Check Program.
 - (4) Suspected hazardous wastes must be properly labeled and stored in the hazardous waste containment area, if they are stored overnight.
 - (5) It is the responsibility of the facility operator to dispose of any prohibited materials (hazardous or suspected hazardous materials, liquid, sludges, radioactive or medical wastes) in accordance with all local, state and federal regulations.
 - (6) Incidents of unlawful disposal of prohibited materials shall be reported to the LEA monthly as described in the monitoring section of this permit. In addition, the following agencies shall be notified immediately, after each occurrence, if applicable, of any incidents of illegal hazardous materials disposal:
 - I. Los Angeles County Fire Prevention Bureau, Hazardous Materials Division
 - II. Environmental Crimes Division, L.A. County District Attorney
 - III. California Highway Patrol
- y. The operator shall maintain a daily log of special/unusual occurrences. If there are no special occurrences for a given day, that day's entry shall read "none". This log shall include, but are not necessarily limited to:

Any loads refused entry into the facility, potentially live ammunition, fires, explosions, earthquakes, discharge of hazardous liquids or gases to the ground or the atmosphere, or significant injuries, accidents, or property damage.

Each of these log entries shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The operator shall maintain this log at the facility so as to be available at all times to site personnel and to the Enforcement Agencies' personnel. Any of these specified entries made in this log must be promptly reported to the LEA. Only authorized personnel can make entries into this log. If a situation arises that cannot be handled by facility personnel then call 911 or another outside emergency agency, as appropriate. The LEA shall be notified immediately after the appropriate outside emergency agency has been notified.
