

Materials Recovery Facilities (MRF) Performance Standards: Comparable to Source Separation

Tuesday, July 16, 2013
1:00 p.m. – 4:00 p.m.
CalEPA Building, Byron Sher Auditorium, 2nd floor
1001 I Street
Sacramento, CA 95814

NOTE: This workshop only addresses “comparable to source separation” topic.

Workshop Overview: Staff will present a detailed walkthrough of one proposed approach for determining if mixed waste processing facilities (MWPFS) are comparable to source separation. Discussion will include definitions, certification process, numerical standards, and a MWPFS evaluation process. Ample time will be available for stakeholder comments.

This workshop is designed to foster a productive discussion of the specifics related to “*comparable to source separation*”. Nothing is set in stone. We plan to work through the issues and get it right.

AGENDA

Welcome by Local Officials, Introduction

Purpose of Meeting

CalRecycle Presentation

- Brief Background and Alternate Approaches
- Proposal Concept and Criteria
- Proposal Details

BREAK

Stakeholder Input and Discussion of Issues
