

SOLID WASTE FACILITY PERMIT		1. Facility/Permit Number: 37-AA-0922
2. Name and Address of Facility: EDCO Station 8184 Commercial Street La Mesa, CA 91941	3. Name and Mailing Address of Operator: EDCO Disposal Corporation 6670 Federal Boulevard Lemon Grove, CA 91945	4. Name and Address of Owner: City of La Mesa 8130 Allison Avenue La Mesa, CA 91941
5. Specifications:		
a. Permitted Operation:		Transfer Station Materials Recovery Facility
b. Permitted Hours of Operation:		24 Hours Sunday – Saturday
c. Maximum Permitted Tonnage:		1,000 Tons / Day
d. Permitted Traffic Volume: Passenger Car Equivalents		1,214 total PCE / Day
e. Key Design Parameters:		
Total Permitted Site		4.1 Acres
Permitted Material Recovery, Transfer and Processing		4.1 Acres
Design Capacity (Tons / Day)		1,000
<p><i>Upon significant change in design or operation from that described herein, this permit is subject to revocation, suspension or modification. The attached permit findings and conditions are integral parts of this permit and supersede the conditions of any previously issued solid waste facility permit.</i></p>		
6. Approval:	7. Enforcement Agency Name and Address:	
<hr/> Approving Officer Signature JACK MILLER, Director <hr/> Name/Title	San Diego County Department of Environmental Health Solid Waste Local Enforcement Agency 5500 Overland Drive, Suite 170 San Diego, CA 92123	
8. Received by CalRecycle:	9. CalRecycle Concurrence Date:	
		
10. Permit Review Due Date:	11. Permit Issued Date:	

SOLID WASTE FACILITY PERMIT**1. Facility/Permit Number:****37-AA-0922****12. Description of Facility:**

8184 Commercial Street, La Mesa, San Diego County, CA; Assessor Parcel Numbers 464-600-07-00, and as described in the Report of Facility Information/ Transfer Processing Report, dated March 2011.

13. Findings:

- a) This permit is consistent with standards adopted by the Department of Resource Recycling and Recovery (CalRecycle) [formally known as California Integrated Waste Management Board]. (Public Resources Code, §44010.)
- b) This facility is identified in the Non-Disposal Facility Element (NDFE) of the Countywide Integrated Waste Management Plan (approved by California Integrated Waste Management Board March 2006). (Public Resource Code, §50001(a))
- c) In accordance with the California Environmental Quality Act (CEQA) Guidelines, §15096(f), the LEA has reviewed and considered the information regarding the environmental effects of this facility as contained in the Final Environmental Impact Report (FEIR), SCH# 96071012, dated January 1997 and certified by the City of La Mesa on March 25, 1997.
- d) The design and operation of the facility is in compliance with the State Minimum Standards for solid waste handling for Transfer/Processing as determined by the LEA, based on a review of the March 2011 Report of Facility Information/Transfer Processing Report and an inspection conducted on July 12, 2011.
- e) The LEA finds that this facility may overlie the closed solid waste disposal site known as the La Mesa Burns site.

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, or hazardous waste, untreated bio-hazardous waste, waste containing more than 50% water, friable and non-friable asbestos, large dead animals or parts thereof, and radioactive waste.

15. In addition to the terms of this SWFP, the following documents describe the operation of this facility:

	Date		Date
Report of Facility Information / Transfer Processing Report	March 2011	Notice of Intent WDID 9 37S012705	December 1996
Environmental Documents Environmental Impact Report (SCH # 96071012)	March 1997	Land Use Permit CUP #CP-06-96	March 1997
Lease Agreements Owner and Operator	March 1997		

16. LEA Conditions:

- a) Without prior written or verbal approval from the LEA to allow otherwise, waste may only be accepted during the hours described in the most current Report of Facility Information/Transfer Processing Report.
- b) The operator shall maintain a copy of this permit, Report of Facility Information/Transfer Processing Report and State Minimum Standards for Transfer/ Processing Stations at the site at all times.
- c) No significant change in design or operation of this facility shall be taken without prior application to and approval by the LEA.
- d) Additional information related to compliance with this permit or information concerning the design and operation of this facility shall be furnished to the LEA upon request.
- e) The SWFP is subject to review by the LEA and may be suspended, revoked or modified at any time for sufficient cause.
- f) Stored recyclables shall not interfere with facility operations or cause a public health nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of recyclables necessary to protect health or prevent a nuisance.

SOLID WASTE FACILITY PERMIT

1. Facility/Permit Number:

37-AA-0922

- g) Stored greenwaste shall not interfere with facility operations or cause a public health nuisance as determined by the LEA. The LEA reserves the right to reduce the maximum storage time of greenwaste necessary to protect health or prevent a nuisance.
- h) The operator shall maintain, and keep current, records of weight and types of waste received per day and per month.
- i) The operator shall maintain, and keep current, records of weight and types of recycled materials received per day and per month.
- j) The operator shall maintain records of final disposition of transferred waste and recycled materials.
- k) The operator shall maintain, and keep current, a record of all vehicles hauling waste to the facility per day and per month.
- l) The operator shall maintain a Log of Special Occurrences and a Log of Complaints received.
- m) The operator shall maintain a record of prohibited wastes discovered by the load check program and the final disposition of these wastes.
- n) The owner/operator shall ensure the existing dust control systems are operational and adequate at all times. If the existing dust control system (misting/fogging system, load out curtains) fails to be adequate for the control of dust in the operations of the facility, the LEA may require additional mitigation measures be installed.
- o) The owner/operator shall ensure that all waste handling activities are conducted within the transfer building.
