SOLID WASTE FACILITY PERMIT

Facility Number:

15-AA-0057

17. Enforcement Agency (EA) Conditions:

- a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in California Code of Regulations, Title 27.
- b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, earthquake damage, and significant injuries, accidents or property damage, and other unusual occurrences. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA for inspection at all times.
- c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.
- d. The maximum permitted daily tonnage for this facility is 1,500 tons per day for 300 days per calendar year and 2,250 tons per day for 15 days per quarter. This facility shall not receive more than this amount without a revision to this permit.
- e. This permit is subject to review by the EA and may be temporarily suspended or revoked at any time by the EA for sufficient cause, in accordance with Division 30 of the Public Resource Code (PRC), Part 4, Chapter 4, Article 2, Sections 44305 et seq. and associated regulations.
- f. The EA reserves the right to suspend or modify waste receiving and handling operations due to an emergency, a potential health hazard, or the creation of a public nuisance.
- g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may require a permit revision. The operator shall not implement any changes without first submitting a written notice of the proposed change, in the form of a Report of Facility Information (RFI) amendment, to the EA at least 180 days in advance of the change.
- h. A summary of all pilot projects must be submitted to the LEA in writing prior to the implementation of that pilot project. The LEA must approve all pilot projects before they may be implemented.
- i. The facility is not subject to regulatory storage time frames for on-site storage of aggregate derived from processed concrete/asphalt, which is designated for on-site construction and beneficial reuse. The operator shall maintain material storage areas in a manner that will prevent public nuisance and vector harborage.
- j. Debris management may take place at the facility as approved by the LEA.
- k. A copy of this permit shall be maintained at the facility.
- l. Composting will not be conducted until an amendment to the Joint Technical Document has been approved by the LEA.
