SOLID WASTE FACILITY PERMIT

Facility Number:

33-AA-0309

17. Enforcement Agency (EA) Conditions:

a. The operator shall comply with all State Minimum Standards for solid waste handling and disposal as specified in Title 14 and/or 27 California Code of Regulations.

b. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or unpermitted wastes, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of any actions taken by the operator to mitigate the occurrence. The log shall be available to site personnel and the EA at all times.

c. Additional information concerning the design and operation of the facility shall be furnished upon request and within the time frame specified by the EA.

d. The maximum permitted daily tonnage for this facility is 1,500 tons per day (street sweepings are limited to 135 tpd), and shall not receive more than this amount without a revision of this permit. The facility is permitted to receive the following non-hazardous waste: street sweepings, sod and dirt, dry well pumping's, inert materials, mixed construction and demolition materials and gypsum.

e. This permit is subject to review by the EA and may be temporarily suspended or revoked at any time by the EA for sufficient cause, in accordance with Division 30 of the Public Resource Code, Part 4, Chapter 4, Article 2, Sections 44305 et seq and associated regulations.

f. The EA reserves the right to suspend or modify waste receiving and handling operations due to an emergency, a potential health hazard, or the creation of a public nuisance.

g. Any change that would cause the design or operation of the facility not to conform to the terms and conditions of this permit is prohibited. Such a change may be considered a significant change, requiring a permit revision. In no case shall the operator implement any change without first submitting a written notice of the proposed change, in the form of an RFI amendment, to the EA at least 180 days in advance of the change.

h. The operator shall maintain a copy of this permit during normal business hours. In addition the Facility Report, Transfer Processing Report (TPR) and tonnage reports shall be maintained on-site.

i. Adequate lighting shall be provided when natural lighting is insufficient to safely conduct operations.

j. The operator shall follow the appropriate regulations for each type of material accepted.

k. The storage times for materials listed in table 2-1 of the Facility Report shall be followed.

l. The design capacity enumerated in the Facility Report (Table2-2) and the TPR (Table 2-1) for each type of material shall not be exceeded.

m. The operator shall maintain a formal load checking hazardous waste monitoring program that is approved by the enforcement agency. The operator shall provide employee training to address the recognition and proper response to hazardous material incidents.

n. All contaminants processed from street sweepings, construction/demolition/inert sorting, sod/dirt and gypsum screening shall be removed from the site to an approved disposal location within (7) seven days.

o. The operator shall maintain and make available upon request for inspections for the enforcement agency and CalRecycle, all correspondence and reports provided to other regulatory agencies that have jurisdiction over the design and operations of the facility.
