

REQUEST FOR APPROVAL

To: Cara Morgan
Division Chief

From: Jolyne Madison

Request Date: July 8, 2010

Decision Subject: Amended Nondisposal Facility Element For The County Of Riverside

Action By: August 8, 2010

Summary of Request:

Public Resources Code (PRC) Sections 40900 et seq., describe the requirements to be met by cities and counties when developing and implementing integrated waste management plans. PRC Sections 41730 et seq. require that each city and county prepare and adopt a Non-disposal Facility Element (NDFE) which includes a description of existing and new non-disposal facilities, and the expansion of existing non-disposal facilities, which will be needed to implement a jurisdiction's Source Reduction and Recycling Element (SRRE), to enable it to meet the requirements of PRC Section 41780. Cities and counties must amend their NDFE if they are adding or expanding facilities. Jurisdictions are not required to amend their NDFE if they stop using a facility identified in the NDFE; however, if they want to remove the facility from the NDFE, an amendment is required.

The Riverside County Unincorporated has submitted a NDFE amendment for the facilities identified below. Based on review of the amended NDFE, staff found that all of the foregoing requirements have been satisfied and that the amended NDFE substantially complies with PRC Sections 41730, et seq., and recommends approval. This memo requests approval of the Riverside County Unincorporated amended NDFE.

Facility Name: Edom Hill Transfer Station (EHTS)		
<input type="checkbox"/> New	<input type="checkbox"/> Existing, but newly added to NDFE	<input checked="" type="checkbox"/> Expanded
Type	Solid Waste Transfer Station, receiving municipal solid waste, incl. bulky waste, universal waste, source-separated recyclables, C & D, electronic waste, green waste, etc.	
Location	700-100 Edom Hill Rd, within city limits of Cathedral City, on 21.9 acres
