Decision Subject: Amended Nondisposal Facility Element For The Unincorporated County
Of Monterey

Action By: April 12, 2011

Summary of Request:

Public Resources Code (PRC) Sections 40900 et seq., describe the requirements to be met by cities and counties when developing and implementing integrated waste management plans. PRC Sections 41730 et seq. require that each city and county prepare and adopt a Nondisposal Facility Element (NDFE) which includes a description of existing and new nondisposal facilities, and the expansion of existing nondisposal facilities, which will be needed to implement a jurisdiction's Source Reduction and Recycling Element (SRRE), to enable it to meet the requirements of PRC Section 41780. Cities and counties must amend their NDFE if they are adding or expanding facilities. Jurisdictions are not required to amend their NDFE if they stop using a facility identified in the NDFE; however, if they want to remove the facility from the NDFE, an amendment is required.

The Unincorporated County of Monterey has submitted a NDFE amendment for the facilities identified below. Based on review of the amended NDFE, staff found that all of the foregoing requirements have been satisfied and that the amended NDFE substantially complies with PRC Sections 41730, et seq., and recommends approval. This memo requests approval of the County's amended NDFE.
