

Board Meeting  
 April 16-17, 2002

Agenda Item  
 Attachment 1

To request a Time Extension (TE) or Alternative Diversion Requirement (ADR), please complete and sign this form and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

Mail completed documents to:

California Integrated Waste Management Board  
 Office of Local Assistance, (MS 25)  
 1001 I Street  
 PO Box 4025  
 Sacramento CA 95812-4025

**General Instructions:**

For a Time Extension complete Sections I, II, III-A, IV-A, and V.

For an Alternative Diversion Requirement complete Sections I, II, III-B, IV-B and V.

<b>Section I: Jurisdiction Information and Certification</b> <i>All respondents must complete this section.</i>			
I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:			
Jurisdiction Name <i>William</i> Perris		County Riverside	
Authorized Signature <i>William Vasquez</i>		Title City Manager	
Type/Print Name of Person Signing William Vasquez	Date 9-4-01	Phone (909) 943-6100	
Person Completing This Form (please print or type) Joyce Marshall-Woods		Title Director of Local Government Programs	
Phone (909)787-7979	E-mail Address marshall@wrcog.cog.ca.us	Fax (909)787-7991	
Mailing Address 101 North "D" Street	City Perris	State CA	ZIP Code 92570

### Section IIIA--TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

*Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).*

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City will need more time to improve or modify its existing program. The City believed that it would be able to achieve a 50% reduction with the programs identified in its SRRE. This document was carefully reviewed by the City, County LTF, and the CIWMB prior to adoption. Everyone that reviewed the document believed that the programs identified would have allowed the City to achieve a 50% reduction. The City thinks that perhaps all the political, geographic, and financial delays in building the \$7,000,000.00 MRF may have been a large contributing factor to its inability to achieve its diversion goals.

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City has asked for a three year extension because they feel it will take that much time to implement the programs and see the results of the new and expanded programs.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The City's current diversion rate is 43%. The City has implemented all of its SRRE programs and added several more over the years. The City spent all available resources to carefully study how best to achieve the 50% diversion requirements. The City established a special committee comprised of representatives from the community that provided input into the decision making process. The City's hauler spent more than \$7,000,000 to build a mixed waste material recovery facility to assist the City in reaching its 50% goal. This was carefully selected based on the communities population and their belief that it maybe very difficult to get the residents/businesses to participate in a source separated program. The City believed that processing all of its waste was the most effective method to capture the highest volume of recoverable materials. Currently the MRF extracts the following materials from the City's waste stream: aluminum, cardboard, newspaper, mixed waste paper, green and wood waste, scrape metals, white goods, concrete, asphalt, and tires.

- 4. Provide any additional relevant information that supports the request.**

The City has a new staff member assigned to their waste management programs. Ted has been very busy learning about the City's programs and requirements. The City has experienced an extremely large turnover of top level management several times of the last five years. Because of financial problems the City has been operating with a skeleton crew for at least the last two years. This has strongly impacted the City's ability to focus on waste reduction problems. They have been very busy trying to keep police and fire on the streets.

**Section IV A—PLAN OF CORRECTION**

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.

Attach additional sheets if necessary.

Residential %		45%	Non-residential %		55%
PROGRAM TYPE Please use the Board's Program Types. The Program Glossary is online at: <a href="http://www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm">www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm</a>	NEW or EXPAND	DESCRIPTION OF PROGRAM	FUNDING SOURCE	DATE FULLY COMPLETED	ESTIMATED PERCENT DIVERSION
2030-RC-OSP	Expand	The hauler will increase its efforts to encourage the City's businesses to actively participate in the commercial source separated program. One on one contact will be made to help encourage the businesses to take advantage of this program. The rates for this program are set to assist and encourage businesses to participate in the program.	User Fees	2003	2
4060-SP-CAR	Expand	The hauler provide a separate collection container for its business accounts that generate large volumes of concrete/asphalt/rubble waste. All businesses that conduct construction or deconstruction projects will be required to prepare plans that must include identification of waste materials to be generated in the projects and how the businesses plan to divert the materials. Businesses will be required to provide proof of where the materials were delivered prior to getting their final permits.	User Fees	2003	3
7000-FR-MRF	Sxpend	The hauler will increase the number of staff it currently has on its sort lines. This is believed to provide for an increased volume of materials to be pulled from the sort lines	Hauler	2003	2
2080-RE-SPE	New	The hauler will set out recycling containers at all of the City's large venue events: i.e city parks, Railroad Days, Parades, Rod Run, etc.	User Fee	2003	1
<b>Total Estimated Diversion Percent From New and/or Expanded Programs</b>					8
<b>Current Diversion Rate Percent From Latest Annual Report</b>					43
<b>Total Planned Diversion Percent Estimated</b>					51

**PROGRAMS SUPPORTING DIVERSION ACTIVITIES**

<b>PROGRAM TYPE</b>	<b>NEW or EXPANDED</b>	<b>DESCRIPTION OF PROGRAM</b>	<b>DATE FULLY COMPLETED</b>
5000-ED-ELC	Expanded	The City will increase its use of cable T.V. for public education programs to support its existing and planned programs	2002
5010-ED-PRN	Expanded	The City has a newsletter it prepares for the residents and businesses in the City. The City will be utilizing this newsletter to inform both of the existing and new programs available. Efforts will also be made to encourage both to increase their efforts to assist the City in achievement of its diversion goals.	2001
6020-PI-EIN	Expanded	The City will develop a new ordinance specifically to target construction and deconstruction projects within the City. All businesses conducting these kinds of operations will be required to develop diversion plans for these projects to obtain their permits.	2002

**Section V – PARIS**

**Office of Local Assistance staff will be reviewing your Jurisdiction's Planning Annual Report Information System (PARIS) database printout as part of the evaluation of your request. Should the Jurisdiction have updates or revisions to the program implementation from the latest Annual Report submitted to the Board, please attach to the application the Jurisdiction's PARIS database printout showing updates or revisions.**

*Contact your Office of Local Assistance Representative at (916) 341-6199 for a copy of PARIS, or go to the Board's website at [www.ciwmb.ca.gov/LGCentral/PARIS/](http://www.ciwmb.ca.gov/LGCentral/PARIS/).*

## Electronic Annual Report - Section C:

### Existing SRRE and HHWE Program Implementation Assessment

Use this section to update the Board on the status of your waste diversion programs. Please update the record for each program listed below. Do you need [HELP](#) or [Instructions](#)?
