Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

- 1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

Consultant is preparing new base year study (2000) sponsored by permitted commercial haulers. Existing base year underestimated C&D/inert disposal and ongoing business diversion. The City is implementing new programs (C&D ordinance, identifying illegal haulers, automated greenwaste, and conservation).

- 2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

All of the above activities will take several years of implementation (i.e., December 2003) and follow-up to achieve significant diversion results.

- 3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The City of Arcadia recently implemented all but one of its SRRE programs and is not yet achieving the 50% mandate. Only one program, the landfill or product ban, is not in operation or planned for near-term implementation.

- 4. Provide any additional relevant information that supports the request.**

The City has audited existing diversion from the business sector, indicating an increase in diversion to 42%. City staff is also working with State staff on the C&D regulations so that the heavy volume of inerts (35,179 tons in 2000) taken to local mine reclamation facilities do not count as disposal.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.
