NOTICE

To: All Interested Parties

Subject: 2010 Processing Payments

Section 14575 of the Public Resources Code (PRC) requires the Department of Conservation (Department) to establish a processing payment for any beverage container type that has a scrap value less than the cost of recycling.

The Department makes processing payments to processors. Processors pay recyclers the entire processing payment. This notice announces the 2010 processing payments.

Pursuant to PRC Section 14575, the calculation of the 2010 processing payments is based on the difference between the scrap values offered to recyclers and the sum of the actual costs of recycling for certified recycling centers, excluding centers receiving handling fees, plus a reasonable financial return. Scrap values are based on the average scrap values paid to recyclers for the period between October 1, 2008, and September 30, 2009.

Due to the inadequacy of monies in the Beverage Container Recycling Fund to make all the payments specified in PRC Sections 14575 and 14581, the Department was required to proportionally reduce by 100 percent all transactions that occur on and after November 1, 2009. The new 2010 processing payments will continue to include the 100 percent proportionate reduction.

The processing payments shown below become effective January 1, 2010.

2010 Processing Payments per Pound Redeemed
