NOTICE

To: All Interested Parties

Subject: 2012 Processing Fees

Section 14575 of the Public Resources Code (PRC) requires the Department of Resources Recycling and Recovery (CalRecycle) to establish a processing payment and a processing fee for any beverage container type that has a scrap value less than the cost of recycling. CalRecycle makes processing payments to processors. Processors pay recyclers the entire processing payment. Beverage manufacturers pay processing fees to CalRecycle. This notice announces the 2012 processing fees.

Pursuant to PRC Section 14575, the calculation of the 2012 processing payments is based on the difference between the scrap values offered to recyclers and the sum of the actual costs of recycling for certified recycling centers, excluding centers receiving handling fees, plus a reasonable financial return. In addition, no cost of living adjustment will be applied to the 2012 calculations as the measured costs of recycling were completed this year.

Scrap values are based on the average scrap values paid to recyclers for the period between October 1, 2010, and September 30, 2011.

Other than as specified in Section 14575(f), Section 14575(e) provides that a processing fee will equal 65 percent of the processing payment. Section 14575(f) provides that a processing fee be equal to a specified percentage of a processing payment based on the recycling rate for the specified material.

Section 14575(j) directs CalRecycle to reduce total processing fees for glass and PET plastic if sufficient surplus funds remain in the respective processing fee accounts and if the recycling rates equaled or exceeded 45 percent in the preceding calendar year. Since there is insufficient fund in the processing fee account, no reduction for glass will be provided.

For the first time in the history of the recycling program, there will not be a processing fee or payment for the plastic #1 (PET) in 2012. This is a result of the annual average scrap value for plastic #1 (PET) being greater than the actual cost of recycling the material.

The processing fees shown below become effective January 1, 2012.

<i>2012 Processing Fees per Container Sold</i>	
<i>(effective January 1, 2012)</i>	
Glass	\$0.00237
Plastic	
#1 – PET (Polyethylene Terephthalate)	\$0.00000
#2 – HDPE (High Density Polyethylene)	\$0.00213
#3 – PVC (Polyvinyl Chloride)	\$0.01194
#4 – LDPE (Low Density Polyethylene)	\$0.01082
#5 – PP (Polypropylene)	\$0.04727
#6 – PS (Polystyrene)	\$0.00227
#7 – Other	\$0.07353
Bi-metal	\$0.04470

Table 1, attached, shows the following detailed information for glass, plastic, and bimetal beverage containers:

- The cost of recycling
- The scrap value paid to recyclers
- The processing payment (if any)
- The processing fee payable by manufacturers (if any)

Note to beverage manufacturers: Pursuant to PRC Section 14575(g)(1), beverage manufacturers shall pay applicable processing fees for each container sold or transferred to a distributor or dealer within 40 days of the sale.

To review notices of changes impacting participants in the beverage container recycling program, please visit CalRecycle's Beverage Container Recycling Program website at www.calrecycle.ca.gov/BevContainer/ or call the Department of Resources Recycling and Recovery at (916) 323-3836.

For further information on the determination of processing fees, please contact Mr. Hieu Le, Operations Section, Division of Recycling, at (916) 323-5778. If you have any questions concerning processing fee reporting requirements, please contact your assigned account representative in the Client Services Section at (916) 323-1837.
