

Q1–Q3 FY 2015–16 Quarterly Reports Data Supplement

In an effort to ensure transparency, the Department of Resources Recycling and Recovery (CalRecycle) is providing additional data, requested by stakeholders, related to the statutorily required *Quarterly Report on the Status of the Beverage Container Recycling Fund*. The detail presented below is not required by statute, but it is intended to complement the data presented for Quarters 1–3 of Fiscal Year 2015–16. The [Q3 FY 2015–16 Quarterly Report](#) contains the most up-to-date financial information available for the Beverage Container Recycling Fund.

Expanded Fund Condition

The table below denotes an additional level of detail for revenues in the fund condition statement displayed in the Governor’s Budget and directly correlates to the fund condition actuals displayed on Page 5 of the [Q3 FY 2015–16 Quarterly Report](#). The table also provides a breakdown of audit-related revenue by revenue type and notes responsible participant type.

CA BEVERAGE CONTAINER RECYCLING FUND (0133) FUND CONDITION REPORT		Actual Expenditures for 15-16 Quarter 1, 2 and 3			
		Q1 (July-Sept) (Actual)	Q2 (Oct-Dec) (Actual)	Q3 (Jan-March) (Actual)	Totals: Q1-Q3
REVENUES AND TRANSFERS

	15 Settlements/Judgements BCRF		\$10,240	\$0	\$10,240
164300	Penalty Assessment	\$60,950	\$38,357	\$22,594	\$60,950
	22 Late Charges - Disc		\$38,162	\$22,789	\$60,950
	Total Revenues	\$762,430,250	\$760,856,016	\$1,574,233	\$762,430,250

Included under the main revenue categories is a further breakdown. For example, the Beverage Container Redemption Fees line item (revenue code 125100) includes every type of revenue attributable to that line item. Item 125100 – 10, “Redemption Value,” for

example, notes \$724,849,566 in normal receipts and \$1,551,640 in audit related findings (either unpaid CRV from distributors or overpaid CRV to recyclers).

Historical Sales and Returns

The tables below note total container sales and returns by container type. Sold container counts are derived from reports received by CalRecycle directly from beverage distributors, whereas recycled container counts are derived from the redemption weight, from shipping reports, multiplied by the current container per pound rate, which is regularly adjusted to reflect manufacturing changes in beverage containers.

Containers Sold by Fiscal Year and Material Type FY: 2003–04 to FY 2014–15

Note: Only those claims that were either closed or pending closed were used to calculate the number of containers returned. Closed = Claim paid. Pending Close = Claim to be paid, payment in transit; includes small number of older claims that were held back by investigations and final resolution not reflected in system. These data were generated using the biannual report method and they do not match the published biannual reports exactly because these data are updated to reflect things like amendments while biannual reports are static and never updated.

CalRecycle welcomes your feedback. Please send questions and comments to opa@calrecycle.ca.gov
