Subject: CARE

I support the recommendation to find CARE in non-compliance. The industry has been dragging its feet for too long. It is particularly frustrating when they blame a “lack of demand for recycled carpet products” or a “lack of carpet recycling facilities” when these are the very solutions they are best positioned to implement and when they have the funding in hand to make it happen. Please keep pushing for serious action.

Thank you,

Tim Goncharoff
County of Santa Cruz
