

**CLIMATE ACTION TEAM
RECYCLING & WASTE
MANAGEMENT SUBGROUP
WORKSHOP**

January 14, 2008

CLIMATE ACTION TEAM SUBGROUPS

- Background
- Subgroups: Agriculture, Cement, Forestry, Recycling and Waste Management, Water, Energy, Scenario Analysis, Land Use, Green Building, State Fleet, and Economics
- Represented Agencies: CalEPA, ARB, CIWMB, CPUC, CEC, DOC, SWRCB
- Air Resources Board Scoping Plan

TODAY'S GOALS

- Overview of Current/Proposed Strategies
- Solicit Comments/Questions on Current/Proposed Strategies
- Brainstorm New Strategies/Tasks
- Obtain Appropriate Contact Information for Additional Data

STRATEGIES UNDERWAY

- 50% Statewide Recycling Goal - Achieved
- Landfill Methane Capture
 - Install new control systems at landfills currently without control
 - Maximize methane capture efficiencies
 - Increase recovery of methane as a biomass renewable energy source and help achieve the Bioenergy Action Plan Targets
- Zero Waste/High Recycling
 - Optimization of Organics Diversion
 - Composting

STRATEGIES BEING DEVELOPED

- Require the implementation of a commercial recycling program (part of High Recycling Strategy)
 - CIWMB to establish a supporting administration/regulatory system.
- Waste Technology Demonstration, Assessment, and Development
- Expand Awareness of AB 1969 (potentially part of Landfill Methane Capture Strategy)

STRATEGIES BEING DEVELOPED (continued)

- Extended Producer Responsibility
- Develop model solid waste diversion infrastructure based on risk assessments and GHG mitigations that would be implemented by local jurisdictions

TIMELINE

- January 16, 2008 – ARB Scoping Plan Policy Mechanisms Workshop
- April 4, 2008 – ARB Scoping Plan Scenario Workshop
- June 2008 – Draft of ARB's Scoping Plan to be released to public
- October 2008 – 2008 CAT Report will be released
- January 1, 2009 – ARB Scoping Plan Published

OPEN DISCUSSION
