

**CalRecycle Waste Management Sector Plan Workshop
Sacramento, California
June 18, 2013**

**Summary of Comments Related to
Making Thermal Processes More Sustainable**

PowerPoint Presentation on the Waste Management Sector

Biomass Conversion – Challenges

- Slide 40: Beneficial uses of ash need to be identified

Biomass Conversion – Potential Solutions

- Slide 41: State/federal funding to supplement research identifying safe/beneficial uses of ash

MSW Thermal Technologies – Long Term Challenges

- Slide 46: Beneficial use for MSW thermal byproducts

MSW Thermal Technologies – Potential Solutions

- Slide 47: Research technologies/beneficial uses

MSW Thermal Technologies

- Page 2: Research is underway to identify beneficial uses of ash.
- Page 9: Finding a beneficial use for ash will improve sustainability of WTE
- Page 12: State should fund research into beneficial uses of ash

Appendix C – Waste Sector Implementation Plan

Version – June 18, 2013

- Page 4: Conduct additional research for safe and beneficial uses of MSW and biomass conversion ash
