

- (1) Can a project apply for both the grant and loan programs? If so what is the maximum funding a project is eligible for?

James Conway

Hello,

- (2) Thank you for organizing the webinar last week. I have a question regarding the organics grant program. As part of the Cities Zero Waste Strategic Plan and Climate Action Plan we need to develop measures to reduce organics being disposed of in the landfill. Can these grant funds be utilized to evaluate our existing organics collection program and design a facility to manage as much of the organics as possible within the boundaries of the city?

Thank you,

James.
