

Hello CalRecycle GHG reduction team,

Thank you for providing the workshop this morning, it was informative and well run. The one question I would like to follow-up on is the time of payment. My assumption has been that the grant would follow the standard cycle of funding up front, but there seemed to be a phrase about "paid in arrears". Can you be more specific about how this would work? Are you saying that the grant funds would not be available until the end of a period (assuming a year) or when the project is complete?

Best regards,
