Keep fluorescent lamps out of the trash

Contact your local household hazardous waste agency. Broken lamps can release mercury to the air and water. This includes fluorescent tubes, compact fluorescent lamps, metal halide lamps, and sodium vapor lamps. For more information see www.zerowaste.ca.gov or www.dtsc.ca.gov.

For information
see www.zerowaste.ca.gov
www.dtsc.ca.gov

Bring your lamps to:

DEPARTMENT OF TOXIC SUBSTANCES CONTROL

INTEGRATED WASTE MANAGEMENT BOARD
