COMMENTS ON INFORMAL DRAFT REGULATORY TEXT

1. A main program goal is to be consistent with California's solid waste management hierarchy. According to Cal Recycle's web site the waste hierarchy is the order of waste management, which describes reuse as a better alternative than recycle.

A. Explain in detail how the MRO will meet the requirements of 42987.1 (a) and will work to reuse used bedding before recycling.

2. 18962 (a) (7) Education and Outreach. Add the word "renovation" after the words..."promote used mattress"

3. 18964 Mattress Recycling Organization Annual Report shall contain the following:

A. A list of all renovators and/or recyclers that are contracted with the MRO to receive used bedding during the reporting period.

B. A list of all entities that submitted an RFP for the renovation or recycling of used bedding and detail reasons as to why or why not that entity was chosen or denied.

C. A detailed list of prices paid by the MRO to each of the contracted entities for the renovation and/or the recycling of used bedding for the reporting period.

4. 18964(b) (7) insert the words "renovation programs" after the words "...existing used mattress collection" and insert the word "renovation" after the words "...proper management".

Sincerely,
