**Subject:** Questions Regarding Used Mattress Recovery and Recycling Act Draft Regulations

To whom it may concern:

Could you please answer the following questions regarding the draft regulations for the Used Mattress Recovery and Recycling Act?

- As a municipal agency, we operate a residential door-to-door collection program for bulky item waste that includes discarded mattresses. As such, would we be considered a “Used Mattress Recycler”? We would not process, only collect and transport mattresses to a solid waste facility or renovator if required.
- Are there going to be storage and transportation requirements?
- If we were designated as a Used Mattress Recycler, would we be required to implement a fee process (vs. absorbing the incidental costs?)

Thanks
