In compliance with Section 21660.2 of Title 27 of the California Code of Regulations, EHD acting as the LEA will be holding a Public Informational Meeting for a permit revision. The LEA has determined that the proposed changes are a significant change requiring a permit revision to the Solid Waste Facility Permit. The application was accepted as complete for filing by the LEA on December 14, 2011.

Description of Project

The subject facility is located in the unincorporated area of Ventura County near the City of Simi Valley. The proposed revision would allow the expansion of the landfill capacity and addition of ancillary facilities to the site. The Ventura County Planning Division's Conditional Use Permit to allow the proposed changes and Environmental Impact Report were approved and certified by the Ventura County Board of Supervisors on July 19, 2011.

Purpose of the Meeting

This Public Informational Meeting is for any interested parties to learn more about the permit revision and to provide comments to the LEA. The meeting is strictly informational and no official decision will be made at the meeting regarding the solid waste facility permit application. A formal determination must be made by the LEA and concurrence by CalRecycle within 120 days of permit completeness.

Additional Information

A copy of the permit revision application is available for public review on the EHD/LEA website or at the EHD/LEA office noted above during normal business hours between 8:00 a.m. and 5:00 p.m.
