The **Profile Change Detail** page lets you select what information you would like to have CalRecycle change.

In Step 1, you can make Business Information changes. If you check the **Available for Public Hauling** checkbox you will be listed as a public hauler on the WTMS public web site.

In Step 2, you can add or edit an existing contact. Select **New Contact** from the Contact Drop down list to add a new one.

In Step 3, you can update your address. (Let us know if you have a new address and CalRecycle setup a new Tire Program Identification Number (TPID) for that site).

In Step 4, you can enter comments as additional information for the tire program.

WebPass Status Definitions

- Pending:** A WebPass invitation has been sent, but users have not selected the link in their email to create their WebPass account. The security will not be set until the user has selected the link in their email. **Note: If users have not selected the link in their email within 7 days and have not created their account, their WebPass invitation will expire. In that case, another invitation will need to be sent by the WTMS Administrator.**
- In Progress:** Users have selected the link in their email, have completed the WebPass form to create a new account, but have not "activated" their account. After creating their account, users received another email with a link to "activate" their account. The "activation" link must be selected to complete the WebPass process. If users have lost that email, direct them to the [WebPass Resend Activation Email](#) page. **Note: If users have not activated their account by selecting the link in their email within 7 days, their WebPass invitation will expire. In that case, direct them to the WebPass Resend Activation Email page or you can enter their email address on the WebPass Resend Activation Email page and resend them an activation email.**
- Completed:** Users have completed the WebPass creation process and have an active WebPass that they can use to sign into WTMS. If users have forgotten their password, direct them to the [WebPass Password Reset](#) page.
