As a property owner, tenant or person who has requested notice, please be advised that the Kern County Public Health Services Department, Environmental Health Division as the, Local Enforcement Agency (LEA) for the California Department of Resources Recycling and Recovery (CalRecycle) will be holding an informational public hearing in compliance with Title 27 Section 21660 regarding proposed revisions to the Solid Waste Facility Permit (SWFP) for the McKittrick Waste Treatment Site. The LEA is certified by CalRecycle to enforce state laws and regulations at solid waste sites within the County of Kern, including all transfer stations, as well as all active and closed landfills.

### Description of Project and LEA's Preliminary Determination

The proposed revisions of the facility permit are for the McKittrick Waste Treatment Site which currently operates under a Full Solid Waste Facility Permit as a Non-Hazardous, Industrial Solid Waste Disposal Facility (Class II Landfill). The McKittrick Waste Treatment Site is in west Kern County, approximately one mile south of the unincorporated town of McKittrick, and thirty (30) miles west of the City of Bakersfield at 56533 Highway 58 West, McKittrick, CA 93251. The current landfill boundary is located on a 50 acre parcel of land owned by Liquid Waste Management, Inc. in Township 30 South, Range 22 East, Mount Diablo Base and Meridian (MDB&M).

The purpose of the proposed Permit Revision for McKittrick Waste Treatment Site is to:

1. Expand the permitted boundary from 50 acres to 90 acres;
2. Expand the disposal footprint from 27.1 acres to 51 acres;
3. Increase the incoming daily tonnage from 1,180 tons per day to 3,500 tons per day;
4. Increase the max elevation from 1,390 feet mean sea level (msl) to 1,426 feet msl;
5. Increase site capacity from 3,007,400 cubic yards (cy) to 5,099,200 cy.

The location of the facility is identified in the County Siting Element, pursuant to Public Resources Code (PRC), Section 40131.2. This permit is consistent with the standards adopted by CalRecycle, pursuant to PRC 44010 and AB 1126. The design and operation of the facility is consistent with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the enforcement agency, pursuant to PRC 44009. The Kern County Fire Department has determined that the facility is in conformance with applicable fire standards, pursuant to PRC, 44151. The Final Environmental Impact Report (FEIR) was filed with the State Clearinghouse (SCH #2012121062) and certified by the Board of Supervisors in December 10, 2013.

### Purpose of the Meeting

This Public Informational Hearing is for any interested parties to learn more about the proposed revision of the Full Solid Waste Facility Permit (SWFP), and to provide comments to the LEA regarding the proposed action. The decision to issue or not to issue the SWFP (revision, modified, or new) must be made within 120 days of the date the application was deemed complete and correct as required by Statute. Prior to issuance of the new solid waste facility permit, the LEA must request and receive concurrence from CalRecycle.

### Where to get additional information

A copy of the proposed revision of the full SWFP is available for public review by appointment in the LEA office located at Kern County Public Services Building, Kern County Environmental Health Division, 2700 M Street, Suite 300, Bakersfield, CA 93301
