Re: "Beneficial Reuse" of scrap tires

To Whom It May Concern,

I am requesting a permit for the use of "scrap tires" on our go cart track. The tires are used as shock absorbers between the steel rail and the anchor pins (see photo enclosed). The tires are supported off the concrete in four places: two in back with anchor pins, one in the front connecting the tire to the rail, and two feet on the bottom side of the tire. Holes are drilled in the bottom sidewall of each tire to assure any moisture will drain out of the tire cavity.

This use was approved by the Stanislaus County as part of our Planned Development in 1994.

When tires lose their "cushion" we take them to a licensed tire recycler, I am a licensed waste tire hauler (see attachments).

If there is any addition information needed please let me know. I appreciate your help in this matter.

Sincerely,

Ross Briles, Owner
