RE: Closed, Illegal & Abandoned Site Investigation
Services Contract (IWM05073)

Addendum No. 01 To the Request for Qualifications (RFQ)

1. The following questions were received in response to this RFQ solicitation:

Q. 1. Are there particular sites already identified that will be investigated under this contract? Can you let us know where they are?

A.1. No sites have been identified for investigation by the new contract yet. There are potential sites statewide, but mainly in highly populated areas and areas experiencing new development (i.e. land use changes). There potential sites in Riverside County, LA County, Nevada County, and San Diego County.

Q. 2. SOQ Form Section C.1. - Our bank will not notarize such a requested written statement. Can the notarization requirement be waived?

A.2. This question is addressed in item number 2 below.

Q. 3. Why weren't these services included in contract IWM05018?

A.3. The CIA contract specializes in the investigation, **not the remediation**, of closed, illegal and abandoned sites. The services to be provided through this contract will result in a usable tool for Local Enforcement Agencies (LEAs) to jump start stalled enforcement processes on old sites and to avoid potential lawsuits by current landowners against cities/counties that may have operated or contributed to these sites. The services provided to the LEAs offer no cost recovery requirement, so the services are in essence free of charge.
