Date: January 28, 2009

To: All Prospective Contractors

RE: Civil Engineering & Construction Management Services for Tire-Derived  
Aggregate Applications Contract, IWM08028

## Addendum No. 3 To the Request For Qualifications (RFQ)

1. Attached is a list of all businesses who have expressed an interest in the contract to date (Attachment 1).
2. The following questions were submitted during the Question & Answer period and the responses are provided below.

Q1: Is this project federally funded?

A1: No this project is state funded through the tire tax.

Q2: From the Department of General Services is there a quota on using certified builders? SB?

A2: The CIWMB does expect a minimum of 25% of the project services to be contracted to a California OSDS Certified SB and 3% to a California OSDS Certified DVBE. All Proposers shall acknowledge on Attachment E that they will comply with this requirement or make a good faith efforts to meet this goal. Please refer to page 8 & 9 of the RFQ for further information.

Q3: Is there a current contractor?

A3: There are currently two contractors that cover the services: Dr. Dana Humphrey handles the Engineering Services and Kenec, Inc. handles the Construction Management and Procurement Services.

Q4: Will they be allowed to bid on this contract?

A4: Yes

Q5: How long are the above contracts for?

A5: Dr. Dana Humphrey contract was four (4) years and Kennec two (2)years. They are due to expire sometime this year.

Q6: What is the anticipated start date for this contract or will there be a transitional period?

A6: Anticipated start date for this contract is April 2009.

Q7: Has the CIWMB completed any full-scale vibration attenuation layers for rail systems?

A7: Yes. Valley Transit Authority in San Jose constructed approximately 2200 feet of line in 2002. This application has also been chosen as the vibration mitigation technology for the current Bart extension from Milpitas to San Jose. TDA used as a vibration mitigation was also used in the construction of Denver's T-Rex light rail line.

Q8: The check boxes relating to Project Experience do not specifically refer to TDA work, these look more like hazardous waste project experience. In the previous RFQ (IWM06008) there was specific tire shred references, instrumentation monitoring, etc. All other information on the page is exactly the same as 06008.

A8: Please refer to Addendum 2 for clarification & visit our website

<http://www.ciwmb.ca.gov/Contracts/> for the revised RFQ that includes the updated section under Project Experience specifically on page 6 of Attachment A of the RFQ.

All other terms, conditions, and requirements of this RFQ will remain the same.

If you have any questions relating to this RFQ process, please contact me at (916) 341-6649 or at [contracts@ciwmb.ca.gov](mailto:contracts@ciwmb.ca.gov).

Sincerely,

*{Original Signed By}*

Shelly Lewis  
Contract Analyst  
Administrative Services Branch
