Arabic Trade Networks: Growth and Expansion in the Middle Ages

California Education and the Environment Initiative

Approved by the California State Board of Education, 2010

The Education and the Environment Initiative Curriculum is a cooperative endeavor of the following entities:

California Environmental Protection Agency
California Natural Resources Agency
California State Board of Education
California Department of Education
Department of Resources Recycling and Recovery (CalRecycle)

Key Partners:

Special thanks to **Heal the Bay**, sponsor of the EEI law, for their partnership and participation in reviewing portions of the EEI curriculum.

Valuable assistance with maps, photos, videos and design was provided by the **National Geographic Society** under a contract with the State of California.

Name: _____

Part 2

Instructions: Complete the following tasks and answer the questions using complete sentences. (5 points each)

11. Choose two cities on the Afroeurasian trade routes and identify a good or product that traveled between them.

12. Explain how the people living on the Arabian Peninsula benefited from trade along the trade routes.

13. Describe how Arab people came to live in other parts of the world because of trade.

Name: _____

14. What influence did Arab merchants have on the world during the Middle Ages?

15. Describe the connection between the plague and the trade routes during the Middle Ages. What effect did the plague have on the trading centers?

Name: _____

Instructions: Read **Spanish Rice** (Student Edition, pages 17–18). After you finish reading the article, come back to the five statements below. Explain how what you read about rice makes each statement true. Each of your answers should be at least one paragraph. (5 points per statement)

The Statements

1. Improvements to agriculture increased supplies of food and other products, which led to the growth of trade. Consider irrigation, tools, and knowledge of plants and animals.

2. The growth of human populations and cities led to the establishment of trade routes among Asia, Africa, and Europe to import various goods and products (for example, agricultural products).

3. People transported goods, products, and inventions along the trade routes.
