

Made in USA Registered and Leadership in Energy and Environmental Design, LEED

Delamo Manufacturing is a pioneer and recognized leader of **Delamo GREEN CLEAN** products in industrial and institutional channels. Delamo Manufacturing, a believer in sustainable manufacturing, provides durable, functional cleaning tools for use in commercial and professional environments which make it attractive to service providers.

Delamo GREEN CLEAN products have received their independent third-party certification, **"Made in USA"**. The **"Made in USA"** seal shows that Delamo Manufacturing has gone through a rigorous supply chain audit to verify compliance. Service providers and consumers know that when they see the certification seal on **Delamo GREEN CLEAN** products, the claim has been verified, tested and true. The seal provides the service providers peace of mind and confidence in their purchases and a powerful marketing/branding tool to reach its customers.

Delamo GREEN CLEAN products have been third party certified to verify that the commercial cleaning tool products contribute to obtaining **Leadership in Energy and Environmental Design (LEED) credits**. The **Delamo GREEN CLEAN** product line is the only modular cleaning tool in the world using a blend of 85 to 100 percent post consumer recycled tire rubber and plastic and made entirely from regionally sourced materials. Service providers and architects will be able to claim the environmental, economic and health and community benefits that result from Delamo going through this rigorous third party certification process. LEED Point Contribution: MRc4 (1-2 points), 85% - 100% Post Consumer Recycled Content by Weight; MRc5 (1-2 points), Regionally Sourced Material; Innovation in Design 1.1 (1-5 points); and Construction Waste Management MR 2 (1 - 2 points).

To learn more about the **Delamo GREEN CLEAN** product line please contact Delamo Manufacturing at 888/711.8011 or visit www.delamo-mfg.com.
