Tri-C Tire Recycling Division

Tri-C Landscape Mulch

Tri-C Landscape Mulch is a premium, eco-friendly rubber groundcover that provides long-lasting effective coverage in commercial and residential planting beds, around signposts, building entrances and other landscape areas. **Tri-C Landscape Mulch** keeps the soil cool, prevents erosion and water runoff assuring your flower, trees and shrub beds remain healthy and attractive. Use it in walkway borders and around your patio or pool garden to suppress weeds, control insects and wipe out dust and mud. **Tri-C Landscape Mulch** stays in place, is mold and fade resistant and makes annual mulching a thing of the past by saving time and money.

Benefits

- Made from California scrap tires
- Helps control weeds
- Easy to install, virtually maintenance free
- Eliminates dust and mud
- Doesn't deteriorate, float or blow away
- Drains well, helps maintain soil moisture
- Non-Decomposable

Applications

- Commercial and residential planting beds
