Sierra Mat & Rubber Company

Rubber Mulch

Colors

- Red
- Dark Brown
- Green
- Blue
- Black
- Saddle Brown

Sierra Rubber Mulch is an effective, safe and excellent alternative to wood mulch, sand or gravel and reduces the regional and global carbon footprint by reusing materials that would otherwise end up in landfills. Sierra Rubber Mulch is made from 100% recycled tires and comes in an array of colors to suit the landscape application. Sierra Rubber Mulch is ideal for landscaping, gardens and nature trails. The product is beneficial to the soils as rubber is non-porous and does not absorb water on its way through to the soil. It also becomes a weed barrier as weed seeds dehydrate in the mulch before reaching the soil. Beautify your landscape with Sierra Rubber Mulch.

Applications

- Residential landscape
- Commercial landscape
- Walkways and paths
- Trails and pavilions
- Tree wells
- Erosion control
- Play surfaces

Benefits

- Worry free landscaping and low maintenance
- Preserves ground moisture to keep plants healthy
- Does away with termites, carpenter ants or other insects
- Does not rot, compress, erode or blow or wash away
- Inhibits growth of molds and fungi, reducing allergy risk
- Cost and performance effective
- Contributes to LEED credits
