

EMD SEMD Serono, Inc.
Plan to Support Safe Needle Collection and Disposal
for Serostim[®] (somatropin(rDNA origin) for Injection) &
EGRIFTA[®] (tesamorelin for Injection)

EMD Serono is committed to meeting the needs of patients and the communities in which they live in. As part of this, we have developed a plan to support the safe collection and disposal of waste devices in support of Senate Bill 486 for the residents of California.

I. Providing for Effective Safe Needle Collection and Disposal

EMD Serono is working with a third-party organization to support the safe collection and disposal of waste devices. This program developed by EMD Serono will offer California residents who are Serostim[®] (somatropin(rDNA origin) for Injection) and EGRIFTA[®] (tesamorelin for Injection) patients, the opportunity to participate in a free, Sharps container mail back program. The following items will be sent to CA residents on Serostim or EGRIFTA therapy upon request:

- Introduction kit inclusive of 2 Sharps containers including mail back packaging.
- Replacement containers with mail-back packaging after the resident has mailed-back previously-supplied collection containers

Enrollment into this program is available for residents of CA using Serostim and EGRIFTA and accomplished by calling the AXIS Center at 877-714-2947. Containers may be subject to availability.

II. Educating Patients

EMD Serono will place information about the sharps disposal ban in California on our company Web site in order to educate patients and the greater community. We will also proactively reach out to patient and professional organizations in the state of California to make them aware of EMD Serono's plan to support the safe collection and disposal of waste devices. We will encourage patients to call our toll-free support service, AXIS Center, for any questions that they have related to Serostim or EGRIFTA and the safe collection and disposal of related waste devices.

Further, we will educate patients initiating Serostim or EGRIFTA therapy through telephone outreach and during injection training via our Product Specialists about our plan. In addition to informing them of the organization's plan, we will also make them aware of the local CA resources available through CalRecycle Sharps and Medication Disposal Directory available at the following site:
(<http://www.calrecycle.ca.gov/homehazwaste/HealthCare/Collection/Default.aspx>)

III. Coordinating with California Organizations

EMD Serono will work with organizations to make them aware of the company's commitment and support of the safe collection and disposal of waste devices. We will proactively reach out to organizations in the state of California to make them aware of EMD Serono's plan. In addition, we will seek feedback from these local organizations on our plan to better understand how we can meet the needs of CA residents.

IV. Involving Consumers and the Community

As part of our on-going commitment to meeting the needs of patients, EMD Serono will work to obtain feedback from existing Serostim or EGRIFTA patients on our plan to support the collection and disposal of waste devices.
