Flag Status: Flagged

In the proposed regulation changes (14 CCR 17354 and 14 CCR 17356) various sections of the State Fire Code are referenced. According to the State's web site, effective January 1, 2014, the numbers of those will change. Chapter 25 of Title 24 in the CCR is becoming Chapter 34 and I believe that Chapter 23 is becoming Chapter 32 (I didn't make copies of those).

Attached is page one of the previous version of Chapter 25 and the beginning of Chapter 34.

If another 30 day public comment period will be required, hopefully it can be done soon. I would like to see these changes implemented.

Thank you,
Jerry Weir
