

Jacquie Adams, San Bernardino County LEA:

Issue #1 - The term "physical change" in step 5 of the proposed Decision Tree is misleading! The example Mark de Bie gave was correcting the acreage of a footprint...just correcting the number not a physical change. There needs to be a different word, perhaps "corrective" change or "real" change.

Issue #5 How would a modified permit be affected or affect the 5 Year Permit Process? This needs to be spelled out in the regulations.
