Other Related Resources

- The Solid Waste Information System (SWIS) database contains information on solid waste facilities, operations, and disposal sites throughout the State of California. The types of facilities found in this database include landfills, transfer stations, material recovery facilities, composting sites, transformation facilities, waste tire sites, and closed disposal sites
<http://www.calrecycle.ca.gov/SWFacilities/Directory/>
- California Waste Stream Profiles display high-level summary information about solid waste management issues in California by pulling data together from numerous sources. Profiles are currently available in the following categories: jurisdictions, counties, facilities, materials, legislative districts, and schools. The data shared is displayed in using text, tables, charts, maps contacts, and links.
- The Cal/EPA web site has a dedicated page to addressing its efforts on the issue of Environmental Justice (EJ). Much of what Cal/EPA has accomplished and/or plans to achieve in the future to better serve the citizens of California on issues surrounding EJ can be found at:
