

**XX Recycling Center is not a solid waste facility and therefore no inspection report is developed. Select the best, next steps you would take relative to the situations presented.**

---

**STATION #10**

**Choose your next step:**

- A. Intervene and ensure CRV is not paid on the material
- B. Observe transaction and pass detailed information on to CalRecycle Beverage Container Program Nor Cal Investigations Supervisor. Include license plates and estimates of volume of material and description of beverage container.
- C. Call the Police
- D. (Your own next step)

---

---

---

---

**STATION #11**

**Choose your next step:**

- A. Go back to the office to draft a cease and desist order that states all activities requiring a solid waste permit shall cease immediately. Issue the order as soon as possible.
- B. Document observations in a letter to the land owner. Provide detail to explain what activities are generally considered to be solid waste handling and indicate that the activity should stop soon or the land owner will need to obtain a permit to engage in the activities
- C. Follow EPP steps relative to an illegal facility.
- D. (Your own next step)

---

---

---

---

**STATION #12**

**Choose your next step:**

- A. Include storage of tires in with the solid waste facility issues documented earlier (at station (#11), and include them in any enforcement action taken relative to the site.
- B. Document observations and pass the information to the Tire Enforcement Agency (TEA) for the jurisdiction.
- C. Document observations in a letter to the land owner. Provide detail in the letter that explains what activities require a waste tire storage permit and indicate that the activity should stop soon or the land owner will need to obtain a permit to store the tires.
- D. (Your own next step)
